VOE survey means it's time to tell it like it is

Don't just fill out your Voice of the Employee (VOE) survey for yourself. Do it for our customers.

They might not know a lot about the VOE survey, but they benefit from the workplace improvements that result from it.

A positive workplace environment does more than just send off good vibes. It affects performance — and that affects business outcomes. Dependable, reliable, consistent and courteous service is a customer magnet.

So, for the quarter of USPS employees who received one of the VOE surveys mailed out recently, it's time to tell it like it is. Help USPS identify workplace issues so improvements can be made. You benefit. So do our customers. And they're our bottom line.

VOE surveys are due Feb. 21.

New postal law — Sarbanes-Oxley

The Facts

The Sarbanes-Oxley Act now applies to the Postal Service. SOX, as the law is called, was enacted in 2002 in response to improper corporate accounting practices. It's designed to add transparency, accuracy and reliability to a company's financial disclosures. We have until fiscal year 2010 to comply with certain provisions.

Section 404 of the law requires the Postal Service to establish controls and testing for financial reporting, as well as report any changes in financial conditions or operations. The accuracy of this information must be personally certified by the postmaster general and the chief financial officer.

The PMG's View

Those of you who have read the *Transformation Plan* know that the Postal Service is committed to comply with SOX requirements that are applicable to a government entity. Therefore, the only change brought about by the new law is a specific timetable to implement this.

Our first priority remains delivering the mail and improving service performance and customer satisfaction today! It's incumbent upon all of us to ensure we don't get distracted by these new procedures and continue to manage our day-to-day business.

Ella Fitzgerald stamp issued in New York

Through her music, jazz singer Ella Fitzgerald gave her heart and soul to the world. In January, the world gave a little something back. Fitzgerald became the 30th *Black Heritage* stamp series honoree during a first-day-of-issue ceremony at Jazz at Lincoln Center, New York, NY.

Honoring Ella Fitzgerald at the first-day-of-issue ceremony are, from left, Ella's granddaughter Blossom Brown, son Ray Brown, Jr., and her longtime friend Phoebe Jacobs.

Over the years, Fitzgerald won 13 Grammy Awards and many other honors, including the National Medal of Arts, presented to her in 1987 by President Ronald Reagan. She was one of five artists awarded Kennedy Center Honors in 1979. In 1989, the Society of Singers created an award for lifetime achievement, called it the "Ella," and made her its first recipient. In 2005, Jazz at Lincoln Center inducted Fitzgerald into its Nesuhi Ertegun Jazz Hall of Fame.

Fitzgerald continued to perform up until a few years before her death, when failing health compelled her reluctant retirement. Songwriter Ira Gershwin once remarked, "I never knew how good our songs were until I heard Ella Fitzgerald sing them."

2006 Annual Progress Report released

The Postal Service has achieved remarkable results and is better prepared than ever to help ensure a prosperous future for mail, according to a progress report on the organization's transformation efforts. The *2006 Annual Progress Report* examines progress made on key strategies identified in the *Strategic Transformation Plan, 2006–2010.*

The Postal Service has achieved seven straight years of productivity growth and, in 2006, had its fourth consecutive year of positive net income, along with high levels of service and customer satisfaction.

The report reflects the Postal Service's commitment to make mail a more powerful and versatile business tool for customers.

The report identifies improvements in address and mailing list quality as a critical priority for 2007. Each year

billions of pieces of mail cannot be delivered because addresses are incomplete, wrong, or out of date.

The Postal Accountability and Enhancement Act, recently signed into law by President Bush, will enable the organization to continue its transformation efforts and cost-cutting measures.

The *2006 Annual Progress Report* is available online at http://www.usps.com/strategicplanning/publications.htm.

Oklahoma stamp dedicated

Along with the wind, a USPS delegation came sweepin' down the plain last month, joining state officials to celebrate the issuance of the *Oklahoma Statehood* stamp at the state's Oklahoma History Center.

Dedicating the Oklahoma stamp are, from left, Oklahoma Centennial Commission Executive Director Blake Wade, former USPS Board of Governors Chairman Bert Mackie, Oklahoma Gov. Brad Henry, Oklahoma Centennial Commission Chairman of Projects and Events Lee Allan Smith, USPS Southwest Area Operations Vice President Ellis Burgoyne and former Oklahoma Gov. George Nigh.

Among those who attended were Southwest Area Operations Vice President Ellis Burgoyne, Oklahoma Gov. Brad Henry, Oklahoma Centennial Commission Chairman of Projects and Events Lee Allan Smith, Oklahoma Centennial Commission Executive Director Blake Wade, former USPS Board of Governors Chairman Bert Mackie and former Oklahoma Gov. George Nigh.

The stamp is available online at The Postal Store on *www.usps.com/shop,* at philatelic centers and at Oklahoma Post Offices. Customers also can purchase the stamps by calling toll-free 800-STAMP-24.

Getting the insider scoop

There's a new strategy for getting information to retail employees. The quarterly Manager's Guide and Employee Calendar have been replaced with *Retail Insider,* a new monthly electronic newsletter. The new publication will:

- Share information to help better manage the retail environment.

- Keep retail employees informed of changes in point-of-purchase signage.

- Provide need-to-know information for getting the most out of our promotions.

- Give timely updates on performance measures such as Mystery Shopper scores and sales revenue.

The new publication appears in two versions — one for district retail employees and another for Post Office retail employees. The Post Office version also features printed attachments such as stand-up talks and quick tips to be given to retail associates.

Archives of the *Retail Insider* will be available on the retail marketing Web site at *http://blue.usps.gov/marketing/retail/employeecomm.htm.*

Love stamp featuring Hershey's Kiss goes on sale

Love — and the sweet smell of chocolate — permeated the air recently, as USPS dedicated its *With Love and Kisses* stamp at Giant Center in Hershey, PA.

"Americans traditionally send something sweet in their envelopes on Valentine's Day," said PMG Jack Potter. "With the *With Love and Kisses* stamp, they can now put something sweet on their envelopes."

Introducing the *With Love and Kisses* stamp last Saturday in Hershey, PA, were, from left, USPS Stamp Services Manager David Failor; Richard Lenny, Hershey's chairman, president and CEO; PMG Jack Potter and U.S. Rep. Tim Holden (D-PA).

Potter was joined at the dedication ceremony by USPS Stamp Services Manager David Failor. Also attending the ceremony were Rep. Tim Holden (D-PA) and Richard Lenny, The Hershey Company's chairman of the board, president and CEO.

The *With Love and Kisses* stamp marks the latest issue in the Postal Service's popular series of annual *Love* stamps. The series began in 1973. Award-winning illustrator José Ortega — one of the artists who created the *Let's Dance, Bailemos!* series in 2005 — designed this year's *Love* stamp.

DMM Revision

Products Mailable at Nonprofit Standard Mail Rates

Effective January 1, 2007, we are revising 703.1.6.11 of the *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) to adjust the maximum value of a low-cost item to $8.90.

Under statutory restrictions in DMM 703, products that are mailed at the Nonprofit Standard Mail rates must meet at least one of three exceptions. A *low-cost item* is one of these exceptions under the Internal Revenue Code. The value of a low-cost item — the actual cost to the authorized nonprofit organization — is determined each year by the Internal Revenue Service, based on cost of living.

The following products are mailable at Nonprofit Standard Mail rates:

[Revise item a to reflect the change in the maximum allowed value of low-cost items, as follows:]

a. Low-cost items within the meaning of 26 USC 513(h)(2), Internal Revenue Code. At the beginning of each calendar year, the value of low-cost items is adjusted for cost of living. Effective January 1, 2007, the cost of such items cannot exceed $8.90. This cost is the cost to the authorized organization that mails the items or on whose behalf the items are mailed.

First-Class Mail Automation Flats — Optional Letter Tray Preparation

Effective February 1, 2007, mailers have a new option to prepare tray-based mailings of First-Class Mail® automation flats in extended managed mail letter trays. Mailers have asked for this option to make preparation easier, and receiving faced, upright flats is cost effective for Postal Service™ processing. We are revising 335.3.0 of the *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) to reflect the new option.

3.2　　Standard Containers

[Revise 3.2 to add the letter tray option as follows:]

Mailings must be prepared in flat trays with green lids under 3.4, unless prepared in extended managed mail (EMM) trays under 3.5. A postmaster may authorize nonpostal containers for a small-volume presorted mailing if the mailing weighs no more than 20 pounds, consists primarily of mail or bundles of mail for local ZIP Codes, and requires no USPS transportation for processing.

[Revise title and text of 3.3 to include letter trays as follows:]

3.3　　Flat Tray and Letter Tray Sizes

These approximate measurements define the USPS-provided tray sizes that apply to mail preparation standards in 3.4 and 3.5:

   a. Flat tray. Inside bottom dimensions: 14-3/4 inches long by 10-3/4 inches wide. Height: 8 inches to bottom of handhold, 11-1/4 inches to top of tray.

   b. Letter tray. 2-foot extended MM (EMM) trays: 21-3/4 inches long by 11-1/2 inches wide (inside bottom dimensions) by 6-1/8 inches high.

[Revise title of 3.4 to specify "flat" trays as follows:]

*　　*　　*　　*　　*

[Renumber 3.5 as 3.6. Add new 3.5 to specify automation flats prepared in "letter" trays as follows:]

3.5　　Preparation for Flats in EMM Letter Trays

Mailers may prepare First-Class Mail flat-size pieces in EMM letter trays instead of flat trays if the following standards are met:

   a. The pieces must fit completely within the dimensions for height, length, and width specified in 3.3b for an extended managed mail (EMM) letter tray. All pieces must be upright, faced toward the end of the tray (the short dimension), and perpendicular to the length of the tray.

   b. Trays must bear tray-size labels that meet all applicable physical and barcode standards under 4.9, with Line 1 and Line 2 information as required for flat-size mail in flat trays. Each label must contain a barcode as specified in 708.6.2.3 and the content identifier number required in Exhibit 708.6.1 for the same type of flat-size mail prepared in flat trays.

   c. All mail must be prepared under 6.6, *First-Class Mail Optional Tray-Based Preparation,* and must not be prepared in bundles, except pieces in less-than-full trays must be bundled. Mailers using this option are not eligible to prepare their mail under 705.9.0.

   d. All other applicable standards in 6.0, *Preparation for Automation Rate Flats,* must be met, including required preparation sequence and use of tray minimums.

DMM REVISION

Facing Identification Marks on Reusable Envelopes

Effective February 1, 2007, we are revising 601.6.5 and 708.9.1 of the *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) concerning the preparation of letter-size envelopes with permit imprint indicia when those envelopes are designed as reusable mailpieces. This revision deletes the requirement to place a facing identification mark (FIM) on the reverse side of these pieces, and provides an option to print a FIM on the address side. The change allows more flexibility for mailers to print, distribute, and mail reusable envelopes.

We also are adding a reference in 708.9.1 to 703.8.0 about the use of FIMs on cards or envelopes with absentee balloting materials.

[Revise item b to delete the requirement to place a FIM on the reverse side, as follows:]

b. Distribution. When reusable mailpieces are originally mailed, postage must be paid with permit imprint and a complete address and corresponding barcode must be located in the address block. Reusable pieces must be entered at a postal facility as part of a permit imprint mailing. On mailpieces other than window envelopes, the address block for return of the piece (including the delivery address and a corresponding barcode) will be located on the reverse side. If included, prepaid reply postage must be located or obscured so that it is not mistaken by postal mail processing equipment or employees as applying to the originating piece.

The facing identification mark (FIM) serves to orient and separate certain types of First-Class Mail during the facing-canceling process. Mailers must use the appropriate FIM as follows:

a. All letter-size business reply mail (BRM) under 507.8.0.

b. All letter-size permit reply mail (PRM) under 507.9.0.

c. Letter-size courtesy reply mail (CRM) and meter reply mail (MRM) provided as enclosures in automation-rate mailings under 201.3.0.

d. Letter-size mail with IBI printed with nonfluorescent ink directly onto the envelope by an IBI meter or a PC postage system must use FIM D.

e. Cards and letter-size envelopes containing absentee balloting materials under 703.8.0.

f. A FIM must not be used on other types of mail, except that a FIM may be used on a letter-size envelope with a permit imprint indicia when that envelope is designed for use as a reusable mailpiece under 601.6.0. A FIM used for this purpose must be the appropriate FIM for the postage payment method on the returned envelope (see 9.2).

DMM Revision

Expanding the Use of Intelligent Mail Barcodes

Effective March 1, 2007, the Postal Service™ will allow mailers to use Intelligent Mail® barcodes (previously called "4-State Customer Barcodes") on automation-rate First-Class Mail®, Periodicals, and Standard Mail® letters for rate eligibility, in lieu of POSTNET™ delivery point barcodes (DPBCs). We will revise 202, 233, 243, 707, and 708 of *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) to incorporate this change in our March update.

Currently, mailers who are Confirm® service subscribers or Address Change Service participants use either of two types of barcodes — an Intelligent Mail barcode or a DPBC — on automation-rate letters for rate eligibility. Allowing mailers to use the Intelligent Mail barcode on all automation-rate letters encourages use of this new barcode.

When mailers choose to use the Intelligent Mail barcode, they must include a numeric Business Entity Identifier. Mailers who do not have an assigned Business Entity Identifier may obtain one by contacting the *PostalOne!®* Help Desk at 800-522-9085. Complete specifications for Intelligent Mail barcodes are defined in *USPS-B-3200*, which is available for download at *http://ribbs.usps.gov/ OneCodeSOLUTION/*.

As our technology evolves, we will continue to expand the use of Intelligent Mail barcodes.

Automation rate letters and letters claimed at an Enhanced Carrier Route saturation or high density rate may bear a DPBC or an Intelligent Mail barcode with a delivery point routing code (see 708.4.0). Mailers must print the barcode either in the address block or in the barcode clear zone, except that pieces in a OneCode ACS mailing and pieces that weigh more than 3 ounces must include the barcode in the address block. An Intelligent Mail barcode placed in the address block, when used with OneCode ACS (see 507.3.2), must appear above the address information according to standards in 5.7.

5.4 5-Digit and ZIP+4 Barcode Permissibility

[Revise the first two sentences in 5.4 by deleting the One-Code Confirm requirement as follows:]

An automation rate letter-size piece may not bear a 5-digit or ZIP+4 barcode in the lower right corner (barcode clear zone). The piece may bear a 5-digit or ZIP+4 barcode in the address block only if a DPBC or an Intelligent Mail barcode with a delivery point routing code appears in the lower right corner.***

4.3.1   Definition

[Revise 4.3.1 to emphasize the Business Entity Identifier requirement and to delete specific information about the 20-digit tracking code (this information will be included and updated in USPS-B-3200) as follows:]

An Intelligent Mail barcode is the USPS-developed barcode that mailers use to encode routing and tracking information that can be read by automated mail processing equipment to sort mail and to provide tracking information to the mailers. An Intelligent Mail barcode consists of 65 vertical bars, each representing one of four possible states: full bar, ascender, tracker, and descender. These 65 bars encode a string of 31 digits, divided into two parts: a 20-digit tracking code and an 11-digit routing code. The 11-digit routing code may contain a ZIP Code, a ZIP+4 code, or a delivery-point code. When used on letters for automation-rate eligibility purposes, the routing code must contain a delivery-point code that accurately matches the delivery address. Mailers also must incorporate the Business Entity Identifier code in the customer identifier field. Mailers who do not have a current Business Entity Identifier code may obtain one by contacting the *PostalOne!* Help Desk at 1-800-522-9085.

NOTICE

Clarification of the Nonmachinable Surcharge for Shrubs, Trees, and Other Nursery Stock

Each spring, questions arise about whether to assess a nonmachinable surcharge for shrubs, trees, and other nursery stock placed in the mailstream. We offer the following information for clarification and to promote consistency.

The nonmachinable surcharge in part 453 of the *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) applies to Parcel Post® mailpieces that we cannot process mechanically and that require more costly manual sortation. We assess a nonmachinable surcharge for a Parcel Post item that does not meet the machinable criteria in DMM 401.1.5 or that meets the nonmachinable criteria in DMM 401.2.3.2:

- DMM 401.1.5 defines a machinable parcel, in part, as follows:
  - Length: Minimum 6 inches, maximum 34 inches.
  - Height: Minimum 3 inches, maximum 17 inches.
  - Thickness: Minimum 1/4 inch, maximum 17 inches.
  - Weight: Minimum 6 ounces, maximum 35 pounds.
- DMM 401.2.3.2 (items a through j) lists nonmachinable criteria for Parcel Post, including the following in item j: "Parcels with characteristics (such as inadequate packaging) that could result in damage to the contents of the mailpiece, other parcels, or postal machinery if mechanical sortation is used."

Based on the requirements in DMM 401.1.5 and 401.2.3.2, use the following guidelines to determine when to assess a nonmachinable surcharge for shrubs, trees, and other nursery stock items:

- Assess a nonmachinable surcharge if the item does not meet the machinable criteria in DMM 401.1.5 **or** if the item meets any of the nonmachinable criteria in DMM 401.2.3.2 — for example, nursery stock mailed in inadequate packaging, such as plastic, vinyl, or paper bags (sealed or unsealed).
- Don't assess a nonmachinable surcharge if an item 1) meets the machinable criteria in DMM 401.1.5 **and** is mailed completely enclosed in a box or carton that constitutes adequate packaging, or 2) is mailed as follows:
  - At Express Mail® rates.
  - At Priority Mail® rates.
  - At Parcel Post oversized rates.
  - With special handling service.
  - At the following Parcel Select® discount rates:
    - Destination sectional center facility (DSCF) discount rates sorted to 5-digit containers.
    - Destination delivery unit (DDU) discount rates.

NOTICE

Federal Income Tax Withholding

Effective immediately, payroll checks are reflecting the increase in the personal exemption value for each federal tax allowance from $126.92 to $130.77. Based upon provisions in the Jobs and Growth Tax Relief Reconciliation Act of 2003, the six tax percentages remain at 10, 15, 25, 28, 33, and 35 percent, respectively. All information in this article is based upon both a biweekly pay period (PP) and the withholding tables contained in IRS Publication 15.

*   *Wages are determined after subtracting withholding allowances, FSA, FEHB, CPP, and TSP contributions from your gross earnings.*

Federal Employees Health Benefits (FEHB), Commuter Program Pretax (CPP), Flexible Spending Accounts (FSA), and Thrift Savings Plan (TSP) contributions made by employees are treated as pretax monies (unless the employee has signed a pretax waiver for FEHB benefits). When calculating your taxes, remember to subtract your allowances and all of these contribution amounts from your gross earnings.

To determine the amount of withholding, follow the steps listed below:

1. Determine normal biweekly gross wages from earnings statement.

2. Determine normal biweekly TSP contributions from earnings statement.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: $1,000 for domestic, and $700 for international postal money orders.

2. Check that the proper security features are present:

   - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.

   - When held to the light, a dark line (security thread) runs from top to bottom with the word "USPS" repeated.

   - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

   These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card,* or online at *http://www.usps.com/missingmoneyorders/ security.htm.*

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

   Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO ZIP Codes are active and

which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The entry under "Change" appears in bold in the APO/FPO Table starting below.

2007 Enrollment Information

Elections for 2007 begin December 20, 2006
4:01 A.M. CT

Elections for 2007 end December 19, 2007
3:59 A.M. CT

TSP Contribution Limits

- The new TSP contribution limit (based on the 2007 IRS annual deferral limit) is $15,500.

   Note: If you are a Federal Employee Retirement System (FERS) employee, you may lose agency matching contributions if your contributions reach the maximum IRS limit before the last pay period in the calendar year. To evenly distribute the IRS maximum contribution over all 26 pay periods, elect to contribute $597 per pay period ($15,500 divided by 26).

- The TSP 50+ catch-up limit remains at $5,000.

   Note: To participate, you must be age 50 or older during calendar year 2007 and must be able to self-certify that by the end of the calendar year you will have contributed the IRS annual deferral limit, $15,500, through regular contributions to TSP and/or to other plans subject to the elective deferral limit.

- You can begin contributing, change your contribution amount or percentage, or cancel TSP contributions at any time. Make your election using *PostalEASE* by 3:59 A.M. Central Time (CT) on the second Wednesday (day 12) of each pay period in order for the election to be effective in that pay period.

Finance (Continued)

3. Determine normal biweekly FSA contributions from earnings statement. If applicable, add the amounts from both the FSA Dependent Child (FSADC) Sub-Account and the FSA Health Care (FSAHC) Sub-Account.

4. Determine normal biweekly FEHB pretax employee contribution from earnings statement (abbreviated as HP).

5. Determine normal CPP employee contribution from earnings statement.

   Note: This program is administered on a monthly basis. The CPP contribution is deducted in every second PP.

6. Multiply the number of exemptions claimed by the new biweekly exemption value of $130.77 (withholding allowance). The federal tax line on the earnings statement shows the number of exemptions claimed (e.g., S1 = Single with One Exemption, M3 = Married with Three Exemptions).

7. Subtract the amounts in Step 2 (TSP), Step 3 (FSA), Step 4 (FEHB), Step 5 (CPP), and Step 6 (Exemptions) from Step 1 (biweekly gross wages). The remainder is the amount that is subject to withholding.

8. Determine which range this amount falls into on the Federal Income Tax Withholding Table, and follow the instructions listed in the table.

The following is an example of how to compute federal income taxes for a Federal Employee Retirement System (FERS) employee who claims Married with Three Exemptions and makes pretax contributions to the TSP, FSA, FEHB, and CPP.

Example:

A FERS employee receives $3,596.85 as gross biweekly wages. The employee makes the following contributions: 11 percent of gross salary per PP to the TSP; $60.00 per PP to the FSADC Sub-Account; $90.00 per PP to the FSAHC Sub-Account; $134.73 per PP for FEHB ($134.73 is the actual cost for a Postal Service™ employee paying for High Option Self and Family with the GEHA Benefit Plan); and, $100.00 for this PP to the CPP. The employee claims Married with Three Exemptions (M3 on the Federal Tax line of the earnings statement). Using the information provided above in the Federal Income Tax Withholding Table, federal taxes are computed as follows:

1.	Total biweekly gross wages	$3,596.85
2.	TSP contributions	395.65
3.	FSADC contribution	60.00
	FSAHC contribution	90.00
	Total FSA contribution	150.00
4.	FEHB contribution	134.73
5.	CPP contribution	100.00
6.	Exemptions (3 x $130.77)	392.31

Computation continues as follows:

Biweekly gross wages	$3,596.85
Minus TSP contributions	-395.65
Minus FSA contributions	-150.00
Minus FEHB contributions	-134.73
Minus CPP contributions	-100.00
Minus exemptions	-392.31
Amount of wages subject to withholding	**$2,424.16**

To complete the computation, refer to the Married/Biweekly segment of the Federal Income Tax Withholding Table. The amount of wages subject to withholding, $2,424.16, falls within the "over $898 but not over $2,719" range. Using the information provided within that range, the final computation is as follows:

Amount subject to withholding	$2,424.16
Subtract $898 from $2,424.16	1,526.16
Multiply $1,526.16 by .15 (15%)	228.92
Add from the table	59.00
Add $228.92 and $59.00	287.92
Total federal income tax* that should be withheld from this employee's biweekly check	**$287.92**

   * *Rounding may vary this total by a few cents.*

ASM REVISION

Enterprise Information Repository Changes

Effective February 1, 2007, part 842 of the *Administrative Support Manual* (ASM) 13 has been expanded to more fully explain each Information Technology group's responsibilities under the Enterprise Information Repository (EIR).

Administrative Support Manual (ASM)

842   Enterprise Information Repository

[Revise 842 to read as follows:]

842.1   Description

The Enterprise Information Repository (EIR) at *http://eir* is the official central repository of information about Postal Service software applications and application modules. The EIR is used to monitor application status; review applications and infrastructure by their components; identify existing applications that may enhance, or be affected by, proposed applications or infrastructure; and avoid redundancies. When registering an application, you must consider the following: system registration/general information (e.g., name, description, stakeholders, etc.); implementation (e.g., implementation dates, primary user groups, hosting location, desktop components); infrastructure (e.g., network components, infrastructure items); interfaces (internal and external); Web sites (URL(s) for the system); security (sensitivity and criticality classifications and risk mitigation plans); business continuity management, including but not limited to disaster recovery planning and test information; and standards (e.g., section 508, information tool kit, and related factors).

842.2   Requirements

All Postal Service applications, systems, and modules procured, developed, or used by the Postal Service must be registered in the EIR during the planning phase of the Integrated Solutions Methodology (ISM) lifecycle, once funding has been secured. Included in the registration process are all applications, Web applications, and Web sites, regardless of the operating environment (mainframe or server/client, stand-alone PC, or Web), origin (commercial off-the-shelf (COTS) software, outsourced, or in-house development), or status (pilot, development, production, retired, replaced, future, or suspended). You must continually update all information in the EIR so it is current and accurate as long as the application is in use.

842.3   Responsibilities

Functional organization vice presidents must ensure that their applications and modules are registered in the EIR as soon as funding has been approved. Vice presidents can delegate the responsibility for registration to a portfolio manager, the designated IT point of contact, who may in turn assign responsibility for maintaining EIR information to the program manager, business project leader, or project manager. The portfolio manager must notify the IT manager or designee responsible for each EIR component when the application has been registered. The chart below shows how responsibilities are divided among the IT groups.

Segment	Component	Responsible IT Group
System Registration/ General Information and Implementation	N/A	Portfolio
Infrastructure	Hardware and System Information	Computing Services
	Network Information	IT Service Center
Interfaces and Web sites	Development managed by Business Solutions Center	Integrated Business Systems Solutions Centers (IBSSCs)
	Development managed by Portfolio	Portfolio
Information Security and Business Continuity Management	N/A	Corporate Information Security
Standards	N/A	IT Technology Support

Note: When an application is retired, portfolio managers must ensure the retirement process is followed and the

General Information portion of the EIR shows the application has been retired.

842.4   Requests for Access

Anyone with access to the Postal Service Intranet may view (browse) the information contained on the EIR Web site at *http://eir.* If you would like read or write access to the EIR, you may apply through eAccess. General access is necessary for registering, editing, and removing systems. Restrictive access is reserved for user groups and administrators responsible for entering and editing data on information security assurance; Business Continuity Management, including disaster recovery planning and testing; and other subjects.

Requests for Postmarking on Customized Postage

Customized Postage™ is a program being pilot tested with authorized customized postage providers. Customized Postage allows certain forms of private expression to appear immediately adjacent to and integrated with postage indicia.

Customized Postage indicia are a form of PC Postage® and are not stamps. Therefore, similar to meter mail and other forms of PC Postage, Customized Postage does not require postmarking.

Customers or stamp collectors requesting special or pictorial postmarks on Customized Postage must place the appropriate First-Class Mail® rate stamp next to the Customized Postage to receive a postmark.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided, as space permits, are illustrations of those postmarks that were reproducible and available at press time.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event, but who wish to obtain the postmark, may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date*.

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include postage issued after the date of the requested postmark. Such items will be returned unserviced.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following postmark has been extended for 30 days.

Keep on Kissing

The *USPS® Guess & Win Sweepstakes* is still going strong. Make sure that the tear pad of entry forms on the countercard is always filled. Replace an empty tear pad immediately. If you have depleted your supply of tear pads, direct customers to ***www.guessandwinsweeps.com*** to enter the sweepstakes. Don't forget to take down all promotional POP signage at the end of business on 2/15/07.

Keep reminding your customers of the benefits of Priority Mail® flat-rate boxes — ship to any state, one flat rate (up to 70 pounds). Also, remind customers to purchase the *With Love and Kisses* stamp — a perfect touch for Valentine's Day.

For the offices that are not participating, continue to direct your customers to ***www.guessandwinsweeps.com*** where they still have a chance to enter and win even without an entry form.

Although the sweepstakes is almost over, there's plenty of time to make this promotion our best one yet!

Send Gifts With Love & Care
With Valentine's Day right around the corner, it's the perfect time to create a Valentine's Day display by grouping the *With Love and Kisses* stamps, Official Licensed Retail Products (OLRP), and red or love-themed ReadyPost® shipping supplies. Let this display spark a little romance for your customers. Take this opportunity to up-sell higher-priced products and services to generate additional revenue for your office.
