Background

Global Express Guaranteed (GXG) is the Postal Service's fastest international expedited delivery service, provided through an alliance with FedEx Express. GXG fulfills the needs of our customers who require a day-definite international delivery service with a money-back guarantee.

POS ONE walks retail associates through the process of completing a GXG transaction and provides the most up-to-date information and special mailing requirements for each country. Helpful standard operating procedures are included in the kit to ensure that retail associates are confident and thorough as they perform GXG retail transactions.

Information is also provided for those GXG acceptance offices that do not have POS ONE.

GXG Service for Hawaii Uses a Modified Kit

GXG service for Hawaii begins on October 5, 2009 (see *Postal Bulletin* 22266, 8-27-09, page 11). The first Hawaii GXG acceptance Post Offices have received this retail training tools kit, with a few differences, directly from Headquarters. Since GXG acceptance procedures vary slightly from Mainland GXG acceptance, Hawaiian acceptance sites should follow that retail training tools kit.

Postal Codes

Countries That Require Postal Codes

A postal code is required on the shipping label for GXG items mailed to the countries listed below. POS ONE will provide a postal code when possible. Only for the countries below, POS ONE will stop the transaction if no postal code is provided:

- Australia.
- Austria.
- Belgium.
- Brazil.
- Canada.
- China.
- Denmark.
- Faeroe Islands.
- Finland.
- France.
- Germany.
- Great Britain & Northern Ireland.
- Greece.
- Greenland.
- India.
- Indonesia.
- Italy.
- Japan.
- Liechtenstein.
- Luxemburg.
- Malaysia.
- Mexico.
- Monaco.
- Netherlands.
- Norway.
- Philippines.
- Portugal.
- Singapore.
- Spain.
- Sweden.
- Switzerland.
- Thailand.

Abbreviated Postal Codes in POS ONE

POS ONE may only show the first few letters/numbers of the postal code for the following countries, when you search by city name:

- Brazil.
- Canada.
- Great Britain & Northern Ireland.
- Japan.
- Taiwan.

Note: The abbreviated postal codes can be entered on the shipping label, and the shipment will be delivered in accordance with the delivery date.

City Search

Enter at least the first few letters of the city name.

The city search will return a postal code for cities with one individual postal code.

Example 1: France: 'Peray' will be returned with postal code 72260.

Example 2: France: 'Paris' will not be returned with a postal code because 'Paris' has multiple postal codes.

"All Other Cities" Selection

Some countries offer the option to select "All Other Cities" when GXG is offered to all destinations within the country. Only use this option after trying to retrieve the actual city, because "All Other Cities" will provide the longest transit time in that country.

Shipment Contents Selection

Select the items that appear on the shipping label. If the specific items are not on the POS ONE list, then select a similar item. Sample scenarios below:

Scenario 1: *Customer is shipping a Passport:* Search for Passport > Select Passport

Scenario 2: *Customer is shipping an I-Pod:* Search for I-Pod (I-Pod not found) > Search for Computer > Select Computer Hardware

Scenario 3: *Customer is shipping an Airline Ticket:* Search for Airline Ticket > Prompted by POS ONE, ask customer if ticket is blank or issued > Select Airline Ticket Blank or Airline Ticket Issued depending on customer's response.

Online Label Handling (Click-N-Ship)

If a customer has paid postage online, no additional postage should be collected at the counter. If the item is short paid, don't return the package or document to the customer. Tell the customer he/she will receive an e-mail informing him/her that the item is short paid, at which time

the customer will need to pay the balance with the credit card of record before he/she can mail any other Click-N-Ship items.

Standard Operating Procedures

Retail Acceptance of GXX Shipping Label, Item 11FFGG1, GXX International Air Waybill

Retail associates should do the following:

1. Greet customer.
2. Place item on scale.
3. Verify that the customer desires GXX service. Select GXX service and inform the customer of the price. Notify the customer that the shipment may be subject to a dimensional weight postage rate if not shipped in USPS-supplied GXX packaging.
4. Encourage the customer to use GXX (USPS/FedEx) packaging.

GXX Workflow

A. POS ONE Locations

- Enter postal code. If postal code is not known, select Continue and enter first few letters of the city name.
- Select YES/NO response to questions: “Is shipment addressed to a PO Box?” (not available in some countries) (money-back guarantee does not apply to shipments addressed to PO Boxes) and “Does shipment contain any gifts?”
- Review country-specific requirements with the customer.
- If postal code was unknown, destination city options now appear. Select city and have customer enter postal code on label.
- Type first few letters of each item in shipment and scroll to select content items (or similar item name). Select “Add Item.”
- Review GXX Transaction Summary screen.
- Advise customer of the delivery date, holidays, item restrictions, and if a PS Form 6182, *Commercial Invoice* (CI), is required. The CI requirement will appear on the POS ONE screen in the Critical Information section.
- If a CI is required, have customer complete it and review to ensure CI is complete, item descriptions are detailed, and value is accurate for each item.
- Place the three signed copies in plastic pouch, PS Form 2976-E.
- Enter the scheduled delivery date on Item 11FFGG1, *GXX Air Waybill*/Shipping Label (AWB/SL).

B. IRT and SPORT & MOVES Locations

- Refer to *Global Express Guaranteed Service Guide*.
 1. Look up the destination country to determine if shipment content items are restricted or prohibited, to determine availability of PO Box delivery, and to look up a postal code.
 2. Refer to the Documentation Requirements matrix in the destination country listing to determine if the shipment requires a CI.
 - If a CI is required, have the customer complete a CI and review it to ensure the CI is complete, item descriptions are detailed, and value is accurate for each item. Fold and place the three signed copies in plastic pouch, PS Form 2976-E.
 - Compute delivery date (make sure to factor in weekends and both domestic and international holidays).

Note: If a CI is required, compute delivery date using the NON-DOC transit time column in the *Global Express Guaranteed Service Guide*.
 - Inform the customer of the delivery date.
 - Enter as the scheduled delivery date on the AWB/SL.
 5. Select Package Type — POS ONE may prompt for package dimensions and will show the dimensional (DIM) weight price, if higher. In IRT and manual offices, calculate the DIM weight and charge the customer the price of the higher weight if the GXX shipment is not in USPS-supplied GXX packaging.
 6. Article measurements
 - POS ONE locations — Enter measurements into POS ONE and follow screen instructions. Record measurements, weight, and postage on the AWB/SL.
 - IRT locations — Enter measurements into IRT. Record measurements, DIM weight (from IRT), and appropriate weight postage (from IRT) on the AWB/SL.
 - SPORTS & MOVES offices — Record measurements on the AWB/SL. Compute DIM weight ($L \times H \times W \div 166$) and record appropriate weight and postage on the AWB/SL.

Note: DIM weight does not apply to items shipped in USPS-supplied GXX packaging. Refer to the IMM for price.

7. Ask if the customer would like to purchase additional insurance; enter the insurance fee on the AWB/SL.

8. Inform the customer of the total postage amount.

Note: At this point, check the AWB/SL and the CI, if applicable, to make sure all required sections have been completed in English by the customer and you.

9. Communicate to the customer that there are some cases where the money-back guarantee is voided, such as 1) when the delivery is attempted but cannot be made; 2) the delivery address is incomplete or inaccurate; 3) the shipment is delayed by circumstances beyond our control, including severe weather, strikes, and import/export clearance delays.

10. Tell the customer that the recipient will be responsible for paying any Customs duties or taxes.

11. Date stamp the Sender's Copy (top copy) and the USPS Copy (last copy) in the white area above block 3 and remove both copies from the AWB/SL.

12. Insert remaining AWB/SL and any other customer documentation (including CI, if required) in plastic pouch, PS Form 2976-E, with AWB/SL in front of documents, and seal. Affix plastic pouch to front/address side of article.

13. Affix postage to upper right hand portion of article. Complete GXG transaction.

14. Ask the customer if he/she has any other transactions to conduct.

15. Collect funds for the visit.

Note: For Click-N-Ship service and online labels:

- Complete Postal Use Only section on pages one, two, and six of AWB/SL.
- There is an automatic 10 percent postage discount for GXG labels paid online.
- Do not request additional funds for short-paid articles because a short-paid notice will be sent automatically to customer. The customer will need to pay the short-paid postage before making another Click-N-Ship transaction. (Use Postage Affixed function on POS ONE.)
- If a customer presents a stale-dated online label at the retail counter (the date is earlier than the date of mailing), retail associates should advise the customer that a new label must be printed. The customer can request a refund for unused PC postage labels by going to the Online Postage Refund page. For exam-

ple, with Click-N-Ship service, the customer goes to the Click-N-Ship website at www.usps.com/shipping/label.htm and signs in. At the top of the screen, he/she clicks on *Shipping History* or *My Account*, then on the left under the "Refunds" box, clicks *Request a Refund*.

16. Provide the customer with the Sender's Copy of the AWB/SL and POS ONE/IRT or manual receipt.

17. Thank the customer.

18. File the USPS Copy and store it for 6 months.

19. Place the GXG article in an *Express Mail* sack designated for GXG service. Do not mix with other expedited articles.

20. Close sack, properly tag with PS 141, *GXG Sack Tag*, and use destination slide label for designated processing airport mail center/airport mail facility (AMC/AMF).

21. Dispatch articles daily at specified dispatch times to meet GXG critical entry times (CET).

Retail Acceptance of Global Express Guaranteed at Nonparticipating Sites

This process addresses the handling of GXG articles presented at offices not participating in the GXG program for the following scenarios:

1. A FedEx employee drops off a GXG article that was retrieved from a FedEx collection box — Accept the article and forward to the designated AMC or processing and distribution center (P&DC) retail unit for processing.
2. A customer wants to send an article using GXG — Refer the customer to the nearest participating USPS GXG site (list provided by your district retail manager).
3. A customer presents a GXG article with an online label and prepaid postage — Accept the article and forward it to the designated AMC or P&DC retail unit for processing. Advise the customer that the receipt will be mailed to him/her.
4. A USPS carrier drops off a GXG article found in a USPS collection box — Accept the article and forward it to the designated AMC or P&DC retail unit for processing.

Once the GXG article reaches the designated AMC or retail unit at the P&DC, it will be processed according to existing GXG standard operating procedures (SOPs) for accepting GXG shipments, and the customer's receipt will be mailed to him/her.

Retail Acceptance of GXG Shipment Re-mailed

If a shipment was refused by FedEx and returned to the AMC or refused at the AMC:

- The AMC contacts the USPS Call Center by e-mail at uspsgxg@esecurecare.net
- The Call Center contacts the customer.
- The customer is given the option to re-ship or receive a refund for the refused shipment.
- Customers requesting a refund must call 800-222-1811.
- *No GXG refunds can be given at the retail office.*

If the customer elects to re-ship, follow this SOP for reshipping a refused GXG shipment:

1. Once the shipment is received at the retail office, contact the customer and verify that he/she is coming in to correct the issue. (The customer should already have been contacted by the USPS Call Center.)
2. Greet the customer.
3. If the customer has elected to re-mail a refused or returned GXG shipment, scan the original AWB/SL as "Delivered", and complete PS Form 3849, *Delivery Notice/Reminder/Receipt*.
4. Remove the Return to Sender label.
5. Ask the customer to fill out a *new* shipping label.
6. Assist the customer in correcting the issue (for example, the customer should fill out a CI or provide a more detailed description of the contents). (If you are unaware of the reason for refusal/return, please contact the district retail office and request the reason for refusal.)
7. If a CI is required as indicated in the Critical Information section on the POS ONE screen, provide the customer with a CI to complete.
8. Place item on scale.
9. Select GXG.
10. Follow existing acceptance procedures for GXG workflow.
11. Inform the customer of the *new* delivery date.
12. Complete a PS Form 3533, *Application for Refund of Fees, Products, and Withdrawal of Customer Accounts*, for the postage. This credits the retail associate with the postage that he or she will place on the return shipment — although a new postage validation imprint (PVI) will be printed out, no money for postage will be collected from the customer. Complete the PS Form 3533 with the following information:
 - Customer's name and address.

- Signature of Postal Service employee preparing the PS Form 3533.
 - Amount of postage affixed. (For shipments originally mailed using Click-N-Ship service, use the original postage amount on the AWB/SL.)
 - Check off the Other Refunds box and enter (AIC 553) with Explanation: GXG Shipment Re-Mailed.
 - Attach the original postage affixed and the original AWB/SL to the PS Form 3533.
 - Write the new AWB/SL number on PS Form 3533 and report the new and old number via e-mail to GXG at uspsgxg@esecurecare.net.
 - Retail unit supervisor must certify and authorize the PS Form 3533 with signature.
13. Weigh and rate the item on the scale. Print and attach a new PVI label for the postage (the amount will be offset to AIC 553* by the PS Form 3533). If postage was originally paid by Click-N-Ship service, for IRT and POS ONE equipment, select the Postage Affixed key and enter the difference between the current rate and the original Click-N-Ship amount. Ensure the calculation is performed and the original Click-N-Ship amount is displayed. Print and attach a new PVI label for the original Click-N-Ship rate. Complete the transaction.

***Note:** An authorized PS Form 3533 is required support documentation for using AIC 553; this must be kept on file with the PS Form 3849 and original AWB/SL at the local retail unit.
 14. Communicate to the customer that there are some cases where the money-back guarantee is voided, such as 1) when the delivery is attempted but cannot be made; 2) the delivery address is incomplete or inaccurate; 3) the shipment is delayed by circumstances beyond our control, including severe weather, strikes, and import/export clearance delays.
 15. Tell the customer that the recipient will be responsible for paying any Customs duties or taxes.
 16. Provide the customer with the Sender's Copy of the new AWB/SL.
 17. Remove the USPS Copy and maintain on file for 6 months.
 18. Ask the customer if he/she has any other transactions to conduct.
 19. Thank the customer.
 20. Place the GXG article in a designated Express Mail sack. Do not mix with other expedited articles.
 21. Close the sack, properly tag it with GXG Tag 141, and use a destination slide label for designated AMC/AMF.

22. Dispatch articles daily as required, at specified dispatch times.
23. The postmaster or management designee must review the copy of the shipping label, return the label, and complete the GXG Requirements Checklist.
24. Identify the retail associate who accepted the original GXG shipment and review findings from the checklist. Retrain the retail associate on GXG acceptance procedures. For POS offices, review GXG transactions in POS with the retail associate.
25. Send the completed and signed checklist to your district retail manager.

GXG Requirements Checklist Used for Review of Refused GXG Items

The acceptance clerk is responsible for verifying that all sections of the GXG shipping label are correctly completed before the mailpiece is accepted.

If a GXG shipment is returned to your office, use this checklist to review the label to determine the cause of refusal. Inform the retail associate of error and retrain him/her on proper GXG acceptance.

For POS offices, review the transaction in POS with the retail associate.

Complete the form and return it to your district retail office.

8. Press Accept.

Offices that do not have transportation to the AMC by the critical entry time (CET) the same evening of acceptance should make their GXG cut-off time the same as the office opening time; an additional day will automatically be added to the service standards.

Global Express Guaranteed Network Updates

Postmaster/retail supervisors are responsible for setting up the GXG cut-off time in POS ONE for their retail office.

The Distribution Networks Office (DNO) is responsible for entering the GXG cut-off time into the facilities database (FDB) for each GXG district office. The FDB is open two times a year for updates to GXG cut-off times. The two systems are not currently linked.

Unlike Express Mail items, GXG items are inducted into FedEx's international products mailstream at the origin airport and may go on different transportation than the USPS-FedEx shared services network. Therefore, GXG items may have a different CET than Express Mail items.

Ensure the cut-off times in FDB are set at the latest time possible to meet the CET based on existing transportation. Offices that do not have transportation to the P&DC or AMC by the CET for GXG service are to make their GXG cut-off time the same as the office opening time. That way, if a customer purchases GXG service any time that day, POS ONE will automatically add a day to the delivery date.

GXG Frequently Asked Questions

GXG Basic Information

Q. *What are the characteristics of GXG service?*

A. GXG is the premium international shipping option from the U.S. Postal Service® with international transportation and delivery by FedEx Express. GXG offers date-certain delivery within 1 to 3 business days to more than 190 countries with a money-back guarantee and a 10 percent online discount.

Q. *Why is delivery service for GXG provided by a private company?*

A. More and more businesses and individuals need date-certain, courier-level service. Foreign post offices could not provide date-certain delivery in 1 to 3 days. Companies like FedEx have this capability. To meet the needs of its customers, the Postal Service decided to partner with an industry leader to offer our GXG service.

FedEx provides the international transportation, commercial Customs clearance, and delivery of every shipment, while USPS provides retail locations, shipping labels, and packaging to create the shipment, payment options, and acceptance of the shipment.

GXG Information for Retail Associates

Q. *What Customs documentation is needed for GXG shipments?*

A. In some cases, PS Form 6182, *Commercial Invoice*, is required based on the content and destination country. POS ONE will state if a Commercial Invoice is required for the shipment. (If POS ONE is not functioning, refer to the destination country in Publication 141, *Global Express Guaranteed Service Guide*, to determine if a Commercial Invoice is required.) When in doubt, advise customers to use a Commercial Invoice.

Q. *Which holidays could affect the GXG delivery date?*

A. U.S. holidays may affect the acceptance date if the shipment is accepted after cut-off time and the following day is a holiday. The U.S. holiday would push the acceptance day forward to the next U.S. working day. The following are U.S. holidays:

- New Year's Day.
- Birthday of Martin Luther King, Jr.
- Washington's Birthday.
- Memorial Day.
- Independence Day.
- Labor Day.
- Columbus Day.
- Veterans Day.
- Thanksgiving Day.
- Christmas Day.

Holidays in the destination country may affect the delivery date since a shipment cannot be delivered on a holiday. Destination holidays will be displayed on POS ONE if the holiday affects the delivery or

occurs shortly after the scheduled delivery date. A complete list of holidays for GXG destination countries can be found in Publication 141, *Global Express Guaranteed Service Guide*.

Q. *What if a customer does not have correct postage on the GXG Click-N-Ship label?*

A. If the weight of the item is more than the weight used when the Click-N-Ship label was purchased, don't return the package or document to the customer. Tell the customer he/she will receive an e-mail that the item is short paid, at which time he/she will need to pay the balance with the credit card of record before he/she can mail any other Click-N-Ship items.

Note: The 10 percent discount given when the online label was printed will still be honored, and the customer will not be charged for the difference if it is because of the 10 percent online discount. Only the postage due for the weight differential will be charged to the customer's account.

Q. *Where can retail associates find additional training on GXG?*

A.

1. The Global Express Guaranteed Reference Card at the end of this kit guides employees through the POS transaction and provides basic GXG information.
2. All GXG SOPs can be found at <http://blue.usps.gov/retail/L1Policies.htm>.
3. Training is available on the retail site at <http://blue.usps.gov/retail/L1Training.htm>.
4. "GXG Field Information Kit" in *Postal Bulletin* 22231 (4-24-08, pages 5–13) includes instructions on how to complete the GXG air waybill/shipping label (AWB/SL) and Commercial Invoice (CI), as well as information specific to preparing GXG shipments online through Click-N-Ship service.
5. Publication 141, *Global Express Guaranteed Service Guide*, is a great reference tool. It is available online at <http://www.usps.com/cpim/ftp/pubs/pub141.pdf>.
6. The POS video segment about GXG is at <http://eagmnsxfb0/posone/about/training/svs/videos/GXG/GXG.html>.

GXG Information for Customers

Q. *The GXG shipping label requires that a value be stated for each item. What should the customer put as the value?*

A. For documents, the customer should use the reconstruction or replacement cost. For example, the value of a check would be the cost to stop payment on the check and issue a new one, not the dollar amount of the check. For items whose value is not as easy to determine, such as business correspondence, it is still necessary to state a dollar amount, even if it is just one dollar. (**Exception:** Document shipments to Mexico cannot have a value listed.)

For nondocuments, the customer should state the selling price or fair market value of each item.

Q. *How does a customer obtain a postage refund if the GXG shipment is delivered after the specified date?*

A. Customers request a refund by calling 800-222-1811. The claim is handled over the phone by our alliance partner FedEx. Customers may have to complete some paperwork, depending on the claim. A refund check is generally issued in about 2 to 3 weeks.

Note: Money-back guarantee does not apply to shipments to Post Office box addresses acceptable for delivery; Customs delays; delivery was attempted but could not be made; and other exclusions defined in the Summary of Our Terms and Conditions section of Publication 141, *Global Express Guaranteed Service Guide*.

Q. *Can customers track their GXG shipment?*

A. Yes, customers can track, trace, and confirm delivery of their packages on the Web at <http://www.usps.com/shipping/trackandconfirm.htm> or by calling the toll-free customer service number 800-222-1811.

Q. *When is GXG delivery status information available?*

A. Delivery status will be available to customers on the evening of the date of delivery or attempted delivery.

Q. *How can customers take advantage of GXG discount pricing?*

A. Customers receive a 10 percent discount off published prices by preparing and paying for the shipment online through Click-N-Ship service or another authorized PC Postage vendor. The discount is automatically applied to each shipment prepared and paid for online.

A mailer using eVS must have or contract with a service provider that has an automated system that produces mail according to USPS® standards and calculates postage and extra services fees accurately. All eVS mailings must be paid with a permit imprint and meet the standards in DMM 604.5.0.

5.0 Permit Imprint (Indicia)

5.1 General Standards

5.1.1 Definition

[Revise paragraph 5.1.1, as follows:]

A mailer may be authorized to mail material without affixing postage when payment is made at the time of mailing from a permit imprint advance deposit account established with the USPS for that purpose. This payment method may be used for postage and extra service fees for Express Mail (electronic verification system “eVS” only), Priority Mail, First-Class Mail, Standard Mail, and Package Services. This method is not available for Periodicals and must not be used to pay postage on any mailpiece that is designed for reply purposes (except for permit reply mail under 507.10.0).

5.3 Indicia Design, Placement, and Content

* * * * *

[Revise title and the first three sentences of 5.3.6, as follows:]

5.3.6 Express Mail, First-Class Mail, and Priority Mail Format

A permit imprint indicia on Express Mail, First-Class Mail, or Priority Mail must show “Express Mail,” “First-Class Mail,” or “Priority Mail” (or “Priority”), as applicable; “U.S. Postage

Paid”; city and state; and permit number. If the Electronic Verification System (eVS) is used under 705.2.9, the marking “eVS” (or the alternative “e-VS” or “E-VS”) must appear directly below the permit number. The “Express Mail” and “Priority Mail” (or “Priority”) marking may be omitted when using USPS-provided Express Mail and Priority Mail envelopes and containers.***

Exhibit 5.3.10 Indicia Formats for Official Mail and Other Classes

[Revise Exhibit 5.3.10 by adding a new Express Mail indicia and note for official mail formats above First-Class Mail Official Mail formats and above ordinary First-Class Mail formats, as follows:]

Express Mail Official Mail:

EXPRESS MAIL
POSTAGE & FEES PAID
AGENCY NAME
PERMIT NO. G-999
eVS

Note: For this example, when not in indicia, mail class or price must be marked on mailpiece, directly below or to the left of the indicia. The “Express Mail” marking may be omitted when using USPS-provided Express Mail envelopes.

Express Mail:

2.0 Manifest Mailing System

2.1 Description

2.1.1 Using an MMS

[Revise the second sentence of 2.1.1 by adding Express Mail, as follows:]

The MMS is an automated system that allows a mailer to document postage and fees for all pieces in Express Mail (electronic verification system “eVS” only under 2.9), First-Class Mail, Standard Mail, Parcel Select, Package Services, and international permit imprint mailings.

2.9 Electronic Verification System

2.9.1 Description

[Revise the introductory paragraph of 2.9.1 by deleting “parcel” prior to the word mailers, as follows:]

The Electronic Verification System (eVS) is an electronic manifest mailing system that allows mailers to document and pay postage and extra services fees by transmitting electronic files to the Postal Service without generating paper manifests, postage statements, or clearance documents, with the following principal features:

* * * * *

2.9.2 Availability

[Revise introductory paragraph of 2.9.2 and reorganize items by relettering old items a through i as new items b through j, adding new item a, and revising new item c by removing the word “parcel”, as follows:]

eVS may be used only for mail paid with a permit imprint and the following classes and subclasses of mail, price categories, and mail processing categories, except for those prices or processing categories as noted:

- a. Express Mail. Commercial prices; all processing categories. Field testing for Express Mail prices available October 5, 2009. Not available for retail.

* * * * *

- c. Priority Mail. Single-piece price, flat-rate envelope, and flat-rate box; all processing categories. Field testing for Priority Mail prices available July 1, 2007.

* * * * *

2.9.4 Use

[Revise first sentence of 2.9.4 by deleting “parcels” and replacing with “mailpieces”, as follows:]

Mailers depositing permit imprint mailpieces for those classes of mail and price categories specified in 2.9.2 may document and pay postage using eVS.***

* * * * *

2.9.8 Verification and Postage Adjustments

[Revise first sentence of 2.9.8 by deleting “parcels” and replace with “mailpieces” and revise items a through c, as follows:]

USPS randomly samples mailpieces and considers verification samples to be representative of the entire mailing period.***

- a. Postage Adjustment Factor (PAF) Payment. USPS applies postage adjustment calculations, based on verification samples, to all pieces mailed during the mailing period. A mailing period is defined as a calendar month for purposes of calculating adjustments in eVS. USPS adjusts the total postage for the mailing period if the total postage of the pieces sampled during the mailing period results in an underpayment greater than 1.5%. The mailer must pay postage for any underpayments identified by USPS verification. The mailer must maintain sufficient funds in the mailer’s postage account to cover any underpayments discovered after acceptance of the mail.

- b. Unmanifested Mailpiece Payment. The mailer is responsible for postage payment of unmanifested mailpieces. Unmanifested mailpieces are those pieces for which the Postal Service has obtained information from scanning operations but has not received or successfully processed manifest files and records corresponding to the pieces. The mailer must pay postage for unmanifested pieces identified by USPS. The mailer must maintain sufficient funds in the mailer’s postage account to cover postage due discovered after acceptance of the mail.
- c. Mis-shipped DDU Mailpiece Payment. The mailer is responsible for postage payment of destination delivery unit (DDU) mis-shipped mailpieces. DDU Mis-shipped mailpieces are DDU price pieces delivered to the incorrect Postal Service facility by the mailer and transported by the Postal Service to the correct facility. The mailer must pay postage for DDU mis-shipped mailpieces identified by USPS. The mailer must maintain sufficient funds in the mailer’s postage account to cover postage due discovered after acceptance of the mail.

DMM Revision: Price Marking Requirements for Express Mail and Priority Mail Commercial Base and Commercial Plus Pricing

Effective November 2, 2009, the Postal Service™ is revising *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)*®, to implement new price marking requirements on Express Mail® and Priority Mail® pieces mailed at commercial base and commercial plus prices. A *Federal Register* final rule (74 FR 34251–34252) was published on July 15. The Postal Service has provided more than 90 days for mailers to implement the requirements. Mailers requiring additional time may submit a request for an exception to the manager, Pricing and Classification Service Center (see DMM 608.8.4.1). Requests will be evaluated based on the circumstances of the individual mailer’s progress towards transition.

These new markings are essential to fulfill our revenue assurance and reporting requirements. Such markings will help us validate that the pieces qualify for the claimed commercial base and/or commercial plus prices.

Price markings must appear on pieces paid by any means except permit imprint or Express Mail Corporate Account. The respective markings must be printed by the mailer — or produced as part of the meter imprint or PC Postage® indicia. For pieces paid at the commercial base prices, one of the following markings must be reflected: “Commercial Base Price,” “Commercial Base Pricing,” or “ComBasPrice.” For pieces paid at the commercial plus price, one of the following markings must be reflected: “Commercial Plus Price,” “Commercial Plus Pricing,” or “ComPlsPrice.” The appropriate marking must appear directly above, directly below, or to the left of the postage.

DMM Revision: Updated U.S. Census Requirements When Sending Shipments Between or to U.S. Territories, Possessions, and Freely Associated States

Effective November 2, 2009, the Postal Service™ is revising *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 608 to comply with specific Foreign Trade Regulations issued by the U.S. Census Bureau when sending shipments between or to U.S. territories, possessions, and Freely Associated States.

A *Federal Register* final rule published September 4, 2009 (74 FR 45763–45765) details the new Foreign Trade Regulations mandating that electronic export information (EEI) be filed when goods in a shipment are valued at more than \$2,500 or require an export license under U.S. law. You can read the entire *Federal Register* article on Postal Explorer® at <http://pe.usps.com>.

Subject to certain exceptions, and also effective November 2, 2009, customers mailing goods between or to U.S. territories, possessions, and Freely Associated States are responsible for providing an Exemption and Exclusion Legend, Proof of Filing Citation (PFC), or Automated Export System (AES) Downtime Citation on the applicable Customs declaration form. Federal Trade Regulations establish civil and criminal penalties for customers who fail to electronically file their export information when required, or to comply with the Foreign Trade Regulations in any other way. Goods mailed to APO/FPO/DPO (DMM 703.2) addresses are not subject to this standard.

Additional information concerning electronic filing, Exemption and Exclusion Legends, PFCs, AES Downtime Citations, and proper placement of this information on required Customs declarations forms are provided as follows:

Requirements for Sending Shipments between or to U.S. Territories, Possessions, and Freely Associated States

Subject to exemptions and exclusions, customers mailing certain shipments containing goods between the United States, Puerto Rico, and the U.S. Virgin Islands, or from the United States to the Freely Associated States (Republic of the Marshall Islands, Federated States of Micronesia, and Republic of Palau), are responsible for filing EEI with the Census Bureau and for providing a PFC or AES Downtime Citation. In addition, in circumstances where a Customs declaration form is used today on certain parcels, an Exemption or Exclusion Legend should appear, provided a PFC or AES Downtime Citation is not applicable. Goods mailed to APO/FPO/DPO addresses are not subject to these standards.

Electronic Export Information Filing and Proof of Filing Citation

The Census Bureau's requirements for electronic filing of export information apply to certain shipments:

1. From the United States to Puerto Rico or the U.S. Virgin Islands.
2. From Puerto Rico to the United States or U.S. Virgin Islands.
3. From any U.S. location to the Freely Associated States.

Subject to exemptions and exclusions, electronic filing of export information and a PFC are required when:

1. Any type of goods in the package (per Schedule B Export Codes at <http://www.census.gov/foreign-trade/schedules/b>) is valued at more than \$2,500.
2. The package requires an export license, if sent to one of the Freely Associated States. To determine if an export license is required, go to <http://www.export.gov/regulation/index.asp> or call 800-USA-TRAD(E).

In these circumstances, it is the mailer's responsibility to electronically file export information before mailing; a paper Shipper's Export Declaration (SED) is no longer accepted. EEI is filed through the U.S. Census Bureau's AES or *AESDirect* website utilizing the following steps:

- Log on to www.aesdirect.gov and follow the instructions for registering and completing the AES Certification Quiz.
- The "Port of Export" code for shipping through the Postal Service is "8000."
- The "Mode of Transport" is "Mail."
- The carrier should be left as "SCAC/IATA," and the conveyance name fields should remain blank.
- After the mailer has successfully filed the EEI, the mailer will be provided with an alphanumeric Internal Transaction Number (ITN) as confirmation. When mailing, the PFC will consist of the letters "AES" followed by the ITN: for example, "AES X20080930987654."

Note: If the AES system is down, call 800-549-0595, option 1.

AES Downtime Citation

If export information filing is required but AES or AESDirect is unavailable, the goods may be shipped but the mailer is responsible for providing the appropriate AES Downtime Citation. This citation includes the word “AESDOWN,” the mailer’s AES filer identification number, and the date: for example, “AESDOWN 123456789 09/30/2009.”

Exemption and Exclusion Legends

For items that bear a Customs declaration form as defined in *Domestic Mail Manual* 608.2.4, and when a PFC or an export license is not required, customers should enter one of following exemption codes on the Customs declaration form:

- Regardless of value, for all goods shipped to, from, or between the following U.S. Territories, use “NOEEI 30.2(d)(2)”:
 - American Samoa.
 - Guam Island.
 - Northern Mariana Islands.
- For items destined to the Freely Associated States, customers may apply “NOEEI 30.37(a)” if the value of each class of goods is \$2,500 or less.

Exemption or Exclusion Legends cannot be applied to packages that require an export license. In such cases, customers mailing goods are responsible for filing, or attempting to file, EEI through the AES website, and applying a PFC or AES Downtime Citation to the Customs declaration form.

Entering Required PFC, AES Downtime Citation Placement, or Exemption and Exclusion Legend

When required, customers should legibly write the PFC, AES Downtime Citation, or Exemption and Exclusion Legend as follows when a Customs declaration form is used on a package under DMM 608.2.4:

- On PS Form 2976-A, *Customs Declaration and Dispatch Note – CP72* (large white form), customers should write one Exemption or Exclusion Legend, PFC, or AES Downtime Citation in Block 11.
- On older versions of PS Form 2976-A printed prior to January 2009, customers should write one Exemption or Exclusion Legend, PFC, or AES Downtime Citation at the top of the form or in any clear space. Avoid writing over the barcode on the form.
- If no Customs declaration form is required (e.g., items sent between the United States, Puerto Rico, and the U.S. Virgin Islands), no other action for recording the Exemption or Exclusion Legend, PFC,

or AES Downtime Citation on the package is required.

Responding to Customer Questions

Customers needing further assistance with AES filing requirements should contact the U.S. Census Bureau on its toll-free hotline at 800-549-0595:

- Option 1 – AES Assistance.
- Option 2 – Commodity Classification Assistance.
- Option 3 – Regulatory Assistance.

The Commerce Department’s, export Administration Regulations, contain all the required processes, and additionally provide explanations in part 740 and in Supplement 1, and can be found on their website at <http://access.gpo.gov/bis/ear/pdf/740.pdf>.

2.4.2 Freely Associated States — Items Requiring an Export License

Items sent to the Freely Associated States listed in DMM 608.2.2 that require an export license under 608.2.5.8, regardless of weight or class of mail, always require a PS Form 2976-A.

[Insert new 2.5 to read as follows:]

2.5 Foreign Trade Regulations — U.S. Department of Commerce, U.S. Bureau of the Census

This section describes the various U.S. Department of Commerce, U.S. Bureau of the Census requirements when shipping goods to, from, and between U.S. territories, possessions, and Freely Associated States. Shipments to APO/FPO/DPO addresses are not subject to these requirements. Customers may be subject to civil and criminal penalties if they fail to electronically file their export information

when required, or if they fail to comply with the Foreign Trade Regulations in any other way. Refer to IMM 520 for additional standards about the Census Bureau's requirements.

2.5.1 Mandatory Electronic Filing — U.S. Territories, Possessions, and Freely Associated States

Under the authority of 13 U.S.C. Chapter 9, as amended by the Foreign Relations Authorization Act of 2002, P.L. 107-228, U.S. Census Bureau regulations require electronic filing of export information through the U.S. Census Bureau's Automated Export System (AES) or *AESDirect* website for certain shipments of goods. Electronic filing of export information is required when any of the following applies, subject to certain exemptions and exclusions (see DMM 608.2.5.4):

- a. The item requires an export license under U.S. law when sent to the Freely Associated States. See DMM 608.2.5.5 and DMM 608.2.5.6.
- b. One or more classes of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) within the item is valued at more than \$2,500, and the item is mailed as follows:
 1. From Puerto Rico to the United States or U.S. Virgin Islands.
 2. From the United States to Puerto Rico or the U.S. Virgin Islands.
 3. From the United States, Puerto Rico, or the U.S. Virgin Islands to the Freely Associated States.

2.5.2 Value Criterion

Following are three examples to illustrate the value criterion defined in 2.5.1:

- a. A package contains one *mechanically* operated watch (Schedule B item # 9101.11.0000) valued at \$2600. The total value of goods to be mailed is \$2600, and the value of all items within the same Schedule B number is over \$2500. Consequently, electronic filing and a Proof of Filing Citation (PFC) *would* be required (unless an exemption or exclusion applies).
- b. A package contains one *mechanically* operated watch (Schedule B item # 9101.11.0000) valued at \$2400, and one *electronically* operated watch (Schedule B item# 9101.91.0000) valued at \$2400. The total value of goods to be mailed is \$4800, but no group of items within the same Schedule B number is valued over \$2500. Consequently, electronic filing and a PFC *would not* be required, because the mechanical watch and electronic watch are in different Schedule B groups,

- c. A package contains two *mechanically* operated watches (Schedule B item # 9101.11.0000) one valued at \$1400 and one valued at \$1500. The total value of goods to be mailed is \$2900, and the value of all items within the same Schedule B number is over \$2500. Consequently, electronic filing and a PFC *would* be required, unless an exemption or exclusion applies.

2.5.3 How to File Electronic Export Information and Obtain a Proof of Filing Citation

For additional information on electronic filing, call the U.S. Census Bureau's toll-free information hotline at 800-549-0595, option #3. To file electronic export information (EEI) through *AESDirect* and obtain a PFC, customers should use the following steps:

- a. Go to www.aesdirect.gov.
- b. Register for an *AESDirect* account or log into your existing account.
- c. Follow the instructions for the AES Certification Quiz.
- d. The "Port of Export" code for shipping through the Postal Service is "8000."
- e. The "Mode of Transport" is "Mail."
- f. Leave the carrier as "SCAC/IATA" and the conveyance name fields blank.
- g. After successfully filing electronic export information, *AESDirect* will provide an alphanumeric Internal Transaction Number (ITN) as confirmation. The PFC consists of the letters "AES" followed by the ITN: for example, "AES X20080930987654."

2.5.4 AES Downtime Citation

If electronic information filing is required but AES or *AESDirect* is unavailable, the goods may be shipped, but the customer is responsible for providing the appropriate AES Downtime Citation instead of a PFC. This citation includes the word "AESDOWN," the customer's AES filer identification number, and the date: for example, "AESDOWN 123456789 09/30/2009."

2.5.5 Exclusion and Exemption Legends

In many circumstances, EEI filing and a PFC may not be required. In these circumstances, and only when a Customs declaration form is required under 608.2.4, customers are responsible for presenting an applicable Exemption or Exclusion Legend on the Customs declaration form upon mailing. Customers may forgo this requirement if no Customs declaration form is required. When a Customs declaration form is used, customers should enter the applicable Exemption or Exclusion Legend on the Customs declaration form. Customers must only enter one Exemption or Exclusion Legend per addressed mailpiece. When multiple Exemption or Exclusion Legends may apply,

the mailer may select any one that applies. For more information on these and other exemptions and exclusions, customers should consult Appendix C of the Foreign Trade Regulations, 15 C.F.R. Part 30.

The following is a list of the most commonly applicable Exemption or Exclusion Legends for items mailed to, from, or between destinations under 608.2.

- a. Regardless of value, for all goods shipped to, from, or between the following U.S. Territories, use “NOEEI 30.2(d)(2)”:
 1. American Samoa.
 2. Guam Island.
 3. Northern Mariana Islands.
- b. For items destined to the Freely Associated States listed in DMM 608.2.2, customers may apply “NOEEI 30.37(a)” if the value of each class of goods is \$2,500 or less, provided an export license is not required (see 608.2.5.7 and 608.2.5.8).

2.5.6 Placement of PFC, AES Downtime Citation Placement, or Exemption and Exclusion Legend

If no Customs declaration form is required (e.g., items sent between the United States, Puerto Rico, and the U.S. Virgin Islands), no other action for recording the PFC or AES Downtime Citation on the package is required. However, when a shipment requires a PFC, or AES Downtime Citation, or Exemption and Exclusion Legend, and a PS Form 2976-A is used under DMM 608.2.4, it is the customer’s responsibility to legibly write the PFC, AES Downtime Citation, or Exemption or Exclusion Legend as follows:

- a. On PS Form 2976-A, *Customs Declaration and Dispatch Note – CP72* (large white form), customers should write one PFC, AES Downtime Citation, or Exemption or Exclusion Legend in Block 11.

- b. On older versions of PS Form 2976-A printed prior to January 2009, customers should write one PFC, AES Downtime Citation, or Exemption or Exclusion Legend at the top of the form or in any clear space. Avoid writing over the barcode on the form.

2.5.7 Additional Standards for the Freely Associated States

The Freely Associated States listed in DMM 608.2.2 are foreign destinations for the purposes of the Foreign Trade Regulations and other laws and regulations governing imports and exports. As such, certain goods shipped to these destinations from the United States, Puerto Rico, the U.S. Virgin Islands, or other U.S. territories may require an export license. To determine if an export license is required, go to <http://www.export.gov/regulation/index.asp> or call 1-800-USA-TRAD(E) (1-800-872-8723).

2.5.8 When an Export License Is Required

When an export license is required under 608.2.5.7, a PS Form 2976-A is always required. The electronically generated License Number must appear in Block 13, and a PFC or AES Downtime Citation must appear in Block 11 of the Customs declaration form. See IMM 520 and 530 for complete requirements. In addition, it is the mailer’s responsibility to comply with the U.S. Census Bureau’s requirements for filing EEI, as described in DMM 608.2.5.1 and 608.2.5.2. A PFC or AES Downtime Citation should appear on the Customs declaration form as described in DMM 608.2.5.6.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international postal money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at <http://www.usps.com/missingmoneyorders/security.htm>.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table below outlines these conditions by APO/FPO/DPO ZIP™ Codes through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO/DPO ZIP Codes are active and

which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO/DPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1600 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

IMM Revision: Document Items Exempted From Customs Declarations Forms — Update

Effective November 2, 2009, the Postal Service™ is revising *Mailing Standards of the United States Postal Service, International Mail Manual (IMM®)* to add a new section 123.63 to provide clarity and specific examples of “documents” as they relate to the selection of an appropriate customs declaration form under IMM Exhibit 123.61. We are redesignating current section 123.63 as 123.64, and we are also cross-referencing 123.63 as appropriate in Exhibit 123.61.

Previously, in the article titled “IMM Revision: Customs Label Requirements for International Mail Items” in *Postal Bulletin 22262 (7-2-09, page 5)*, we revised IMM Exhibit 123.61 to include the word “documents” in the revised definitions in the “Type of Items” column. This revision is intended to provide additional clarity by providing specific examples of “documents,” which include the following:

- a. Audit and business records.
- b. Personal correspondence.
- c. Circulars.
- d. Pamphlets.
- e. Advertisements.
- f. Written instruments not intended to be resold.

g. Money orders, checks, and similar items that cannot be negotiated or converted into cash without forgery.

In addition, this revision clarifies that “documents,” as they relate to shipments exempt from customs declaration forms, include only printed documents and not electronic storage media or devices such as CDs, DVDs, or flash drives (even though such devices can contain electronic files that can be printed).

Articles such as artwork, collector or antique document items, books, periodicals, printed music, printed educational or test material, player piano rolls, engineering drawings, blueprints, film, negatives, x-rays, separation negatives, photographs, CDs, DVDs, flash drives, video and cassette tapes, and other electronic storage media are considered merchandise. Consequently, these items require a customs declaration form, and the sender must declare a value for them.

We will incorporate these revisions into the next printed version of the IMM and into the monthly update of the online IMM, which is available via Postal Explorer® at <http://pe.usps.com>.

A PS Form 2976, *Customs Declaration CN22 – Sender's Declaration*, must be used for First-Class Mail International™ items and the Priority Mail Flat Rate Envelope®, provided the items are valued at \$400 or less and do not require an export license, when:

- These items do not meet the size or characteristics of a letter or large envelope (flat);
- These items weigh 16 ounces or more; or
- These items contain dutiable contents.

Also use this form on the Priority Mail Small Flat Rate Box®, provided the items are valued at \$400 or less and do not require an export license. Priority Mail Flat Rate Envelopes containing only documents, weighing under 16 ounces, and meeting the flat-size requirements do not require a PS Form 2976. **Do not use this form for items valued over \$400 or when an export license is required.**

This form may also be used when sending items weighing under 16 ounces to APO/FPO and DPO addresses.

(2), (3) and (4) Enter the quantity, net weight (pounds and ounces) and value of each article. (5) For commercial items only. IMM Revision: Updated U.S. Census Requirements When Sending Items to Cuba

Effective November 2, 2009, the Postal Service™ is revising *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®) section 123.712 and part 527 to clarify mailers' responsibilities when sending consumer communications device (CCD) items to Cuba.

Consistent with the article titled "IMM Revision: Updated Standards for Mailing Items to Cuba" in *Postal Bulletin 22268* (9-24-09, pages 14–19), which announced the authorization to send CCD items to Cuba, we are further revising the IMM to include standards for these items when they *do not* qualify as a *gift parcel* and therefore require a mandatory electronic filing under IMM 524.21c. Consequently, we are revising IMM 123.712e to codify that items sent to Cuba may require a Proof of Filing Citation (PFC) or AES Downtime Citation.

In addition, we are revising IMM 527 to codify the following procedures for customers who send CCD items to Cuba:

- a. Customers who use the September 2009 edition of PS Form 2976, *Customs Declaration CN22* —

Sender's Declaration (green label), should, in block 7 of the form, write one PFC or AES Downtime Citation and also completely obliterate the check boxes and text referring to NOEEI § 30.37(a) and NOEEI § 30.37(h).

- b. Customers who use older editions of PS Form 2976 should write one PFC or AES Downtime Citation in the margin on the green portion of the form.

The actual text for these revisions appear in this *Postal Bulletin* issue in the article titled "IMM Revision: Updated U.S. Census Requirements When Sending an International Shipment" (see below).

We will incorporate these revisions into the next printed version of the IMM and into the monthly update of the online IMM, which is available via Postal Explorer® at <http://pe.usps.com>.

IMM Revision: Updated U. S. Census Requirements When Sending an International Shipment

Effective November 2, 2009, the Postal Service™ is revising *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM®) section 123.7 and subchapter 520 to comply with specific Foreign Trade Regulations issued by the U.S. Census Bureau for items sent internationally.

A final rule published in the *Federal Register* (September 4, 2009, 74 FR 45760–45763) details the new Foreign Trade Regulations mandating that Electronic Export Information (EEI) be filed when goods in an international shipment are valued at more than \$2,500 or require an export license under U.S. law. The entire *Federal Register* notice is available on Postal Explorer® at <http://pe.usps.com>; click on *Federal Register Notices*, and then scroll down to the appropriate date and article.

Subject to certain exceptions, and also effective November 2, 2009, customers are responsible for providing an Exemption and Exclusion Legend, Proof of Filing Citation (PFC), or AES Downtime Citation on the customs declaration form. The Foreign Trade Regulations establish civil and criminal penalties for customers who fail to electronically file their export information when required or fail to comply with the Foreign Trade Regulations in any other way. Not subject to this standard are goods mailed to APO/FPO/DPO addresses — see *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM®) 703.2.

In addition, items mailed as gift parcels or humanitarian donations to countries designated as "State Sponsors of Terrorism" must comply with the conditions for License Exception "GFT," or customers may be required to obtain an export license from the U.S. Department of Commerce, Bureau of Industry and Security. The definitions and limitations on such gift parcels and humanitarian donations are set forth in the Commerce Department's Export Administration Regulations. The Postal Service standards for endorsing qualifying items as gift parcels or humanitarian donations are consistent with the Export Administration Regulations and are described here.

Additional information concerning electronic filing, items sent as gift parcels or humanitarian donations, Exemption and Exclusion Legends, PFCs, AES Downtime Citations, and proper placement of this information on required customs declarations forms are provided in the following step-by-step processes.

Electronic Export Information Filing and Proof of Filing Citation

Electronic filing of export information and a PFC are required in the following circumstances:

- a. When any type of goods contained in a shipment (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) is valued at more than \$2,500.

- b. When a package requires an export license. To determine if an export license is required, go to www.export.gov/regulation/index.asp or call 800-872-8723 (800-USA-TRADE).
- c. When a package is shipped to certain countries designated as State Sponsors of Terrorism and does not qualify as a “gift parcel or humanitarian donation.” As of October 5, 2009, the following countries are designated as “State Sponsors of Terrorism”:
 1. Cuba.
 2. Iran.
 3. People’s Democratic Republic of Korea (NorthKorea).
 4. Sudan.
 5. Syrian Arab Republic (Syria).

When any of these three circumstances apply, it is the mailer’s responsibility to electronically file export information before mailing; a paper Shipper’s Export Declaration (SED) is no longer accepted. The mailer can file electronic export information (EEI) through the U.S. Census Bureau’s Automated Export System (AES) or *AESDirect* website using the following steps:

1. Go to www.aesdirect.gov.
2. Register for an *AESDirect* account or log into your existing account.
3. Follow the instructions for the AES Certification Quiz.
4. The “Port of Export” code for shipping through the Postal Service is “8000.”
5. The “Mode of Transport” is “Mail.”
6. Leave the carrier as “SCAC/IATA,” and leave the conveyance name fields blank.
7. After successfully filing electronic export information, *AESDirect* will provide an alphanumeric Internal Transaction Number (ITN) as confirmation. The PFC consists of the letters “AES” followed by the ITN: for example, “AES X20080930987654.”

Note: If the AES system is down, call the U.S. Census Bureau’s toll-free information hotline at 800-549-0595, option 1. For additional information on electronic filing, use option 3.

AES Downtime Citation

If EEI filing is required but AES or *AESDirect* is unavailable, the mailer may ship the goods but is responsible for providing the appropriate AES Downtime Citation instead of a PFC. This citation includes the word “AESDOWN,” the mailer’s AES filer identification number, and the date: for example, “AESDOWN 123456789 09/30/2009.”

Exemption and Exclusion Legends

If no class of goods within the package is valued at more than \$2,500 and an export license is not required, the customer should enter the exemption code “NOEEI 30.37(a)” on the customs declaration form, unless the goods are being shipped to a country designated as a “State Sponsor of Terrorism.” If one or more classes of goods within the package are valued at more than \$2,500, another exemption code might apply, such as “NOEEI 30.36” (goods shipped to Canada, subject to certain exceptions).

Mailers cannot apply Exemption and Exclusion Legends to packages that require an export license. In such cases, customers are responsible for filing, or attempting to file, EEI through the *AESDirect* website and applying a PFC or AES Downtime Citation to the customs declaration form.

For gift parcels and humanitarian donations mailed to certain countries designated as “State Sponsors of Terrorism,” customers may use exemption code “NOEEI 30.37(h).” In addition, the mailer must endorse the item with the marking “GIFT — Export License Not Required” on the addressee side of the package. The mailer must also write the symbol “GFT” in the same block as the Exemption and Exclusion Legend on the applicable required customs declaration, as described below.

Entering Required PFC, AES Downtime Citation, or Exemption and Exclusion Legend

Mailers can mark the PFC, AES Downtime Citation, or Exemption and Exclusion Legend on the applicable customs declaration form as follows:

- a. On the May 2009 and January 2009 editions of PS Form 2976-A, *Customs Declaration and Dispatch Note — CP 72* (large white form), customers should write one PFC, AES Downtime Citation, or applicable Exemption and Exclusion Legend in block 11.
- b. On editions of PS Form 2976-A printed before January 2009, customers should write one PFC, AES Downtime Citation, or applicable Exemption and Exclusion Legend at the top of the form or in any clear space. Avoid writing over the barcode on the form.
- c. On the September 2009 edition of PS Form 2976, *Customs Declaration CN22 — Sender’s Declaration* (green label), customers should check “NOEEI § 30.37(a)” or “NOEEI § 30.37(h)” in block 7 of the form, depending on the applicable Exemption and Exclusion Legend. For CCD items sent to Cuba that require electronic filing, in block 7 of the form, customers should write one PFC or AES Downtime Citation and also completely obliterate the check boxes and text referring to NOEEI § 30.37(a) and NOEEI § 30.37(h).

d. On editions of PS Form 2976 printed before September 2009, customers should write one applicable Exemption and Exclusion Legend (“30.37(a)” or “30.37(h)”) in the margin on the green portion of the form. For CCD items sent to Cuba that require electronic filing (see the Individual Country Listing for Cuba), customers should write one PFC or AES Downtime Citation in the margin on the green portion of the form.

e. On Label 11FGG1, *Global Express Guaranteed International Air Waybill (Mailing Label)*, printed before August 2008, customers should write “NOEEI 30.37(a)” next to the sender’s signature. Current versions of Label 11FGG1 have this exemption legend included on the mailing label.

Note: These standards also apply to mailers who produce privately printed customs declaration forms under IMM 123.3.

Responding to Customer Questions

Customers needing further assistance with AES filing requirements should contact the U.S. Census Bureau on its toll-free hotline at 800-549-0595:

- a. Option 1 — AES Assistance.
- b. Option 2 — Commodity Classification Assistance.
- c. Option 3 — Regulatory Assistance.

The Commerce Department’s Export Administration Regulations contain all the required processes and additionally provide explanations in 15 C.F.R. Part 740 and Supplement 1. The regulations are available on the Commerce Department’s website at www.access.gpo.gov/bis/ear/pdf/740.pdf.

[Revise 520 in its entirety to read as follows:]

520 Foreign Trade Regulations — U.S. Census Bureau

521 General

Subchapter 520 describes the various U.S. Department of Commerce, U.S. Bureau of the Census requirements when shipping goods internationally. In certain circumstances, customers are responsible for entering information on PS Form 2976 or 2976-A. Customers may be subject to civil and criminal penalties if they fail to electronically file their export information when required or if they fail to comply with the Foreign Trade Regulations in any other way.

522 Additional Assistance

Customers needing further assistance with filing requirements should contact the U.S. Census Bureau on its toll-free hotline at 800-549-0595:

- a. Option 1 — AES Assistance.
- b. Option 2 — Commodity Classification Assistance.
- c. Option 3 — Regulatory Assistance.

523 Mailpieces Sent to APOs, FPOs, and DPOs

Goods mailed to APO/FPO/DPO addresses are not subject to the Foreign Trade Regulations. Accordingly, customers are not required to file electronic export information (EEI) via the U.S. Census Bureau's Automated Export System (AES) or AESDirect Web site for such mailings, and they do not need to present a Proof of Filing Citation, AES Downtime Citation, or Exemption and Exclusion Legend.

524 Proof of Filing Citation (PFC)

524.1 General

Under the authority of 13 U.S.C. Chapter 9, as amended by the Foreign Relations Authorization Act of 2002, P.L. 107-228, U.S. Census Bureau regulations require electronic filing of export information through the Census Bureau's Automated Export System (AES) or AESDirect Web site for certain outbound international shipments of goods. Before mailing, customers subject to this filing requirement are responsible for presenting a Proof of Filing Citation (PFC) or AES Downtime Citation as evidence of compliance.

The Census Bureau's regulations mandate that electronic export information be filed when any type of goods contained in a shipment (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) is valued at more than \$2,500, requires an export license under U.S. law, or is being sent to certain countries designated as "State Sponsors of Terrorism," subject to certain exceptions. Following are three examples to illustrate the value criterion:

- a. Example 1: An insured Priority Mail International package contains one *mechanically* operated watch (Schedule B item number 9101.11.0000) valued at \$2,600. The total value of goods to be mailed is \$2,600, and the value of all items within the same Schedule B number is more than \$2,500. Consequently, electronic filing and a PFC *would* be required (unless an exemption or exclusion applies).
- b. Example 2: An insured Priority Mail International package contains one *mechanically* operated watch (Schedule B item number 9101.11.0000) valued at \$2,400, and one *electronically* operated watch (Schedule B item number 9101.91.0000) valued at \$2,400. The total value of goods to be mailed is

\$4,800, but no group of items within the same Schedule B number is valued at more than \$2,500. Consequently, electronic filing and a PFC *would not* be required because the mechanical watch and electronic watch are in different Schedule B groups.

- c. Example 3: An insured Priority Mail International package contains two mechanically operated watches (Schedule B item number 9101.11.0000), one valued at \$1,400 and one valued at \$1,500. The total value of goods to be mailed is \$2,900, and the value of all items within the same Schedule B number is more than \$2,500. Consequently, electronic filing and a PFC *would* be required (unless an exemption or exclusion applies).

524.2 Filing Requirements

524.21 Mandatory Filing

Electronic filing of export information is required when any of the following applies:

- a. One or more classes of goods (per Schedule B Export Codes at www.census.gov/foreign-trade/schedules/b) within the item are valued at more than \$2,500, unless the shipment falls under an exemption or exclusion. See 524.1.
- b. The item requires an export license under U.S. law.
- c. The shipment is destined to a designated "State Sponsor of Terrorism" country (per Country Group E:1 in the Export Administration Regulations, 15 C.F.R. Part 740, Supplement No. 1) and the shipment does not qualify as a "gift parcel or humanitarian donation" as defined by 15 C.F.R. § 740.12.

Note: As of October 5, 2009, the following countries are designated as "State Sponsors of Terrorism":

- a. Cuba.
- b. Iran.
- c. The Democratic People's Republic of Korea (North Korea).
- d. Sudan.
- e. The Syrian Arab Republic (Syria).

524.22 How to File Electronic Export Information and Obtain a Proof of Filing Citation

To file electronic export information through AESDirect and obtain a PFC, customers should use the following steps:

1. Go to www.aesdirect.gov.
2. Register for an AESDirect account or log into your existing account.
3. Follow the instructions for the AES Certification Quiz.
4. The "Port of Export" code for shipping through the Postal Service is "8000."

5. The "Mode of Transport" is "Mail."
6. Leave the carrier as "SCAC/IATA," and leave the conveyance name fields blank.
7. After successfully filing electronic export information, *AESDirect* will provide an alphanumeric Internal Transaction Number (ITN) as confirmation. The PFC consists of the letters "AES" followed by the ITN: for example, "AES X20080930987654."

Note: If the AES system is down, call the U.S. Census Bureau's toll-free information hotline at 800-549-0595, option 1. For additional information on electronic filing, use option 3.

525 AES Downtime Citation

If electronic export information filing is required but AES or *AESDirect* is unavailable, the mailer may ship the goods but is responsible for providing the appropriate AES Downtime Citation instead of a PFC. This citation includes the word "AESDOWN," the mailer's AES filer identification number, and the date: for example, "AESDOWN 123456789 09/30/2009."

526 Exemption and Exclusion Legend

526.1 General

In many circumstances, electronic export information filing and a PFC may not be required when mailing goods internationally. In these circumstances, customers are directed to apply an applicable Exemption and Exclusion Legend on the customs declaration form upon mailing. The following conditions apply:

- a. A mailer may enter one Exemption and Exclusion Legend per addressed mailpiece. When multiple exemptions may apply, the mailer may select any one that applies.
- b. A mailer cannot apply Exemption and Exclusion Legends to shipments that require an export license.

526.2 When Applicable

Customers with shipments not meeting the mandatory filing requirements under 524.21 may apply an Exemption and Exclusion Legend such as the following on each customs declaration form:

- a. "NOEEI 30.37(a)" for shipments when the value of each class of goods is \$2,500 or less. Mailers cannot apply this exemption to shipments that require an export license or to shipments to countries designated as "State Sponsors of Terrorism."
- b. "NOEEI 30.36" for shipments to Canada that do not require an export license.
- c. "NOEEI 30.37(h)" for shipments of gift parcels and humanitarian donations as defined in 15 C.F.R. §

740.12. This exemption may apply to qualifying shipments to countries designated as "State Sponsors of Terrorism" identified in 524.21(c). In addition, the mailer must endorse the item with the marking "GIFT – Export License Not Required" on the addressee side of the package. The mailer must also write the symbol "GFT" in the same block as the Exemption and Exclusion Legend on the applicable required customs declaration, as described in 527.

Note: For more information and a complete listing of these and other Exemption and Exclusion Legends, see Appendix C of the Foreign Trade Regulations, 15 C.F.R. Part 30.

527 Placement of PFC, AES Downtime Citation, or Exemption and Exclusion Legend

When shipments require a PFC, AES Downtime Citation, or Exemption and Exclusion Legend, it is the customer's responsibility to legibly write the PFC, AES Downtime Citation, or Exemption and Exclusion Legend on the applicable customs declaration form as follows:

- a. On the May 2009 and January 2009 editions of PS Form 2976-A, *Customs Declaration and Dispatch Note – CP 72* (large white form), customers should write one PFC, AES Downtime Citation, or applicable Exemption and Exclusion Legend in block 11.
- b. On editions of PS Form 2976-A printed before January 2009, customers should write one PFC, AES Downtime Citation, or applicable Exemption and Exclusion Legend at the top of the form or in any clear space. Avoid writing over the barcode on the form.
- c. On the September 2009 edition of PS Form 2976, *Customs Declaration CN22 – Sender's Declaration* (green label), except for consumer communications devices, computers, and software (CCD) items sent to Cuba (see the Individual Country Listing for Cuba), customers should check "NOEEI §30.37(a)" or "NOEEI §30.37(h)" in block 7 of the form, depending on the applicable Exemption and Exclusion Legend. For CCD items sent to Cuba that require electronic filing, in block 7 of the form, customers should write one PFC or AES Downtime Citation and also completely obliterate the check boxes and text referring to NOEEI § 30.37(a) and NOEEI § 30.37(h).
- d. On editions of PS Form 2976 printed before September 2009, customers should write one applicable Exemption and Exclusion Legend ("30.37(a)" or "30.37(h)") in the margin on the green portion of the form. For CCD items sent to Cuba that require electronic filing (see the Individual Country Listing for Cuba), customers should write one PFC or AES Downtime Citation in the margin on the green portion of the form.

e. On editions of Label 11FGG1, *Global Express Guaranteed International Air Waybill (Mailing Label)*, printed before August 2008, customers should write “NOEEI 30.37(a)” next to the sender’s signature. Current versions of Label 11FGG1 have this exemption legend included on the mailing label.

Note: These standards also apply to mailers who produce privately printed customs declaration forms under 123.3.

POM Revision: Information-Based Indicia Postage Paid Labels Update

Effective October 8, 2009, the Postal Service™ is revising the *Postal Operations Manual (POM)* to include a new section, 136.6, to cover information-based indicia (IBI) postage paid labels. We are adding this new section to the POM to aid our employees in identifying counterfeit IBI labels and obvious weight discrepancies in IBI postage paid mailpieces.

Postal Operations Manual (POM)

1	Retail Management	*	*	*	*	*
13	Retail Services at Counters	*	*	*	*	*
136	Methods of Payment	*	*	*	*	*

[Add new 136.6 to read as follows:]

136.6 Information-based Indicia Postage Paid Labels

Information-based indicia (IBI) and other online customer postage payment options have unique revenue assurance issues that all acceptance and collection employees should be familiar with. One example is a label that appears to have been photocopied or manipulated. All IBI mailing labels are designed to be used in their entirety without the need for any modification. Labels that appear modified are candidates for fraud. Modifications include handwritten changes, obvious deliberate damage to the IBI, and any other change to the original print. All label barcode numbers are unique; no two are identical. The same barcode number appearing on more than one label indicates a photocopied label and is considered a counterfeit label. Any item identified as bearing a photocopied or duplicated label should be refused at the retail window or during carrier pickup at a residence or business. Local management

should be advised when a photocopied or duplicate label has been identified. Local management may contact the Postal Inspection Service if additional guidance is needed.

Another revenue assurance issue to watch for with mailpieces bearing IBI postage is an obvious weight discrepancy. The label information may indicate the weight and amount of postage paid. If the weight listed on the label is obviously incorrect, the employee handling the mailpiece should make every effort to weigh that item on a scale if one is available. If the weight on the IBI label is incorrect, proper postage was not paid. That mailpiece is considered shortpaid and should be handled according to the appropriate shortpaid procedure for that class of mail.

Some IBI mailpieces do not show the actual postage amount paid. This is sometimes referred to as “stealth postage” or “nondenominated” IBI. In these cases the postage may not be visible, but the weight, mail class, and origin ZIP code is in text format on the label, which allows identification of a weight discrepancy. If a mailpiece is found with no postage paid, the mailpiece should be marked “returned for postage” and returned to the sender.

Handbooks

Handbook F-101 Revision: Handling Negative Balance Customer Trust Accounts

Effective immediately, Handbook F-101, *Field Accounting Procedures*, is revised to include handling negative balance customer trust accounts. As a reminder, postal retail units (PRUs) and bulk mail entry units (BMEUs) managing customer permit, periodicals, business reply mail (BRM), and postage due trust accounts must ensure that funds are available prior to accepting a mailing; a negative balance in a customer trust account, is not allowed.

If a customer trust account balance results in a negative balance, it is the responsibility of the unit (e.g., PRU or BMEU) to ensure collections of funds from customers to maintain their accounts in good status.

For handling negative balances in customer trust accounts, see the guidelines in Handbook F-101 as follows:

- Subchapter 16-8: Negative Balances in Permit or Periodicals Accounts.

- Subchapter 17-7: Negative Balances in BRM or Postage Due Accounts.

16-8 Handling Negative Balances in Customer Accounts

If a customer's trust account balance (permit or periodicals) results in a negative balance, it is the responsibility of the unit (PRU or BMEU) to ensure collections of funds from customers to maintain their accounts in good status. The following matrix is a guideline for proper collections for negative balance accounts.

Negative Balance Customer Accounts		
Issue	Process	Action
Encountered a negative balance account.	Notify the customer via telephone call or e-mail.	Do not authorize any mailings. If no response from customer by the 15th calendar day, follow the next step.
After 15 calendar days with no response.	Mail notification letter via regular mail and Certified Mail to the customer's address on file; allow 20 calendar days from date of letter for customer resolution.	Do not authorize any mailings. If no resolution from the customer within the allowed 20 calendar days, follow the next step accordingly.
If no response after 20 calendar days from date of letter, and the negative balance amount is \$100 or more.	BMEU or PRU initiates a PS Form 1902, <i>Justification for Billing Accounts Receivable</i> (January 2009 version); submits with a copy of notification letter to the district finance manager (DFM) for approval. Include Tax Identification Number (TIN) on PS Form 1902. Upon DFM approval, the BMEU or PRU sends PS Form 1902 and a required AIC 636 receipt to the Scanning and Imaging Center (SIC). An accounts receivable will be established at Accounting Services. <i>PostalOne: BMEU initiates PS Form 1902.</i> <i>Non PostalOne: PRU initiates PS Form 1902.</i>	Bring the customer's account balance to zero and close the account. Accounting entries: 1. Enter the amount into AIC 070. 2. Offset with AIC 636. 3. Attach the support documentation for the above accounting entries to PS Form 1902. Note: Accounting entries must be recorded in the PRU's PS Form 1412. The PRU files a copy of the PS Form 1902 locally.
Customer moved, left no address, address unknown, cannot be reached (any amount). Or Uncollectible negative balance amount below \$100.	BMEU or PRU initiates PS Form 2130, <i>Claim for Loss</i> ; submits with copy of carrier-endorsed notification letter to the DFM for approval. Upon approval, the DFM returns the PS Form 2130 and the supporting documentation to the originating unit. <i>PostalOne: BMEU initiates PS Form 2130.</i> <i>Non PostalOne: PRU initiates PS Form 2130.</i>	Bring the customer's account balance to zero and close the account. Accounting entries: 1. Enter the amount into AIC 070. 2. Offset with AIC 633, Claim for Loss (Use Reason Code 09, Uncollectible Customer Account Items). Note: Accounting entries must be recorded in the PRU's PS Form 1412. The PRU files PS Form 2130 locally.

Forms

New PS Form 4584-P, Observation of Driving Practices — Powered Industrial Trucks

A new form, PS Form 4584-P, *Observation of Driving Practices — Powered Industrial Trucks (PITs)*, is now available for supervisors of PIT operators and drivers.

This form and its accompanying instructions will assist in identifying, eliminating, and documenting PIT driving practices that can lead to accidents and injuries. Utilization of the new form will also help us meet the Occupational Safety and Health Administration's statutory requirements for PITs.

Additional information on observing PIT drivers and documenting PIT driving observations can be found in Handbook EL-804, *Safe Driver Program*.

Effective immediately, responsible officials must ensure that:

- All future PIT driving observations are documented using PS Form 4584-P.
- All locally developed and unapproved forms are not used for future PIT driving observations, and existing supply is destroyed.
- Each completed PS Form 4584-P is maintained in local files for a minimum of 3 years and can be produced when requested.

Print On Demand

The Material Distribution Center (MDC) supply of PS Form 4584-P is limited. Use the print-on-demand (POD) function to obtain copies. POD is the Postal Service's preferred method, and aligns with our vision to support a paperless work environment.

Community Connection: New USPS Partnership With Elementary Schools

A sample of the materials available for the USPS Community Connection program

In celebration of National Stamp Collecting Month, the Postal Service™ has forged “Community Connection,” a new community partnership for elementary educators across the country.

Community Connection provides schools with the resources of more than 32,700 Post Offices™, the Postal Service’s archive of American history and culture, and new tools for teaching primary school students through stamps.

“The Postal Service is committed to creating a partnership that’s a significant contributor to elementary school improvement plans,” said David Failor, executive director, Stamp Services. “Community Connection offers extensive and significant curriculum-based tools that will benefit educators and advance student achievement at the primary level.”

The Postal Service will provide elementary schools with an oversized 2009-10 “School Days and American Ways” classroom calendar filled with American history, lesson plan suggestions, and graphics.

Also included are tips for developing extracurricular stamp collecting hobbies, stamp-related articles, and images published online and in children’s educational periodicals. Schools will also have the opportunity for organized educational field trips to local Post Offices and time-released and curriculum-coordinated educator kits.

USPS® is currently taking orders for the 2009-10 School Days and American Ways Calendar. To order, call 800-STAMP-24 or go to www.usps.com.

Good News Benjamin Award Update

We appreciate and value the work postmasters have done over the years to spread the good news about the Postal Service™ and its products and services through the Good News Benjamin Award program. However, the time has come for a review of the award criteria and how the award can be made more relevant to the corporate goals of this organization. We have decided to suspend the award program. Our intent is to introduce a new award program, with new eligibility criteria, that will recognize the best PR practices to promote the Postal Service. We will involve postmasters with the process to help us determine the most realistic criteria for the new award. Your participation

and involvement in this process will be greatly appreciated. While the award program is suspended, we appreciate in advance the great work that postmasters will do this coming year to continue to communicate good news. Postmasters can look forward to new material from Corporate Communications to help support their efforts. We will keep you posted as we move forward.

Finance

Account Identifier Code 074, Special Provisions Local Trust Advance Deposit

Effective October 17, 2009, Post Offices™ and postal retail units (PRUs) will no longer use AIC 074, Special Provisions Local Trust Advance Deposit, or AIC 474, Special Provisions Local Trust Withdrawal, unless they are authorized by their district finance manager. AIC 074 and AIC 474 will be used in compliance with Handbook F-101, Section 18-2, Special Provisions Trust Account, which allows using AIC 074 and AIC 474 for government agencies that are governed by annual budgets and require a once-a-year advance deposit for future payment of postal products and services. This requires the PRU to maintain and manage individual government advance deposit accounts.

At POS ONE offices, AIC 074 and AIC 474 will not be accessed except for those offices that are authorized by their district finance managers. The district finance managers have identified a list of authorized PRUs, with their unit finance numbers, that can use these AICs. It is the responsibility of the authorized PRU to do the following:

- Maintain an individual government advance deposit account using PS Form 25, *Trust Fund Account*. Enter the deposits and withdrawals and calculate the balance.

- Report activities for all accounts on PS Form 3083, *Trust Accounts Receipts and Withdrawals*, daily, at the close of business.
- At least once a month, the postmaster, manager or supervisor must verify that the AIC 074 closing balance in the Accounting Data Mart (ADM) or Narrowcast report matches the closing balance on PS Form 3083 and the PS Form 25 daily summary (see Handbook F-101, Section 18-2).

All other PRUs not authorized to use AIC 074 or 474 must ensure the following:

- If you have a balance amount, either negative or positive, in AIC 074, you must zero-out this amount and close the account prior to October 17, 2009.
- After October 17, 2009, any balance amount will be purged and expensed to the unit finance number.
- After October 17, 2009, unauthorized offices will either not have access to these AICs, or, if used, will create an exception which entails an expense to the 10-digit unit finance number.

The EMA is 60.5 cents per mile, or a minimum of \$24.20 per day, whichever is greater.

Auxiliary Rural Carriers, Rural Carrier Reliefs, Rural Carrier Associates, Rural Carrier Part-Time Flexibles, and Auxiliary Assistance

Employees providing auxiliary assistance or serving auxiliary routes under the provisions of Article 9,

Section 2.J.5, receive an EMA of 60.5 cents per mile or \$6.65 per hour, whichever is greater. This EMA should not exceed the amount provided in the special equipment maintenance allowance for the route stops and miles.

EMA Rate Schedule

The EMA rate schedule on pages [74-75](#) supersedes all previously published EMA schedules for employees receiving EMA.

2009 Combined Federal Campaign Guidelines

Schedule and Responsibilities

Each fall the U.S. Postal Service® joins other federal agencies in the Combined Federal Campaign (CFC). In accordance with Office of Personnel Management (OPM) regulations, the campaign runs for a 6-week period between September 1 and December 15, as established by the local Federal Coordinating Committee.

Vice presidents of Area Operations have campaign responsibility. Area offices must ensure that campaign information is disseminated to all offices under their jurisdiction.

Guidelines Online

Publication 530, *Combined Federal Campaign Operational Guidelines*, October 1994, explains how to carry out a successful campaign; revises position titles, facility locations, and dates of campaign; and is available on the Postal Service™ PolicyNet website:

- Go to <http://blue.usps.gov>.
- Under “Essential Links” in the left-hand column, click *PolicyNet*.
- Click on *PUBs*.

The OPM website (www.opm.gov) offers additional information on the Combined Federal Campaign, including geographic boundaries.

Pledge Form Management Instructions

(Pledge forms vary throughout the country.)

1. Make sure local campaign staff check pledge forms for completeness.
2. Distribute pledge forms as follows:
 - a. CFC audit copy — submit to appropriate CFC official.
 - b. Employee copy — return to employee.
 - c. Payroll Office copy:

If the employee has chosen to...	Then...
Give a one-time contribution (cash, check, or money order),	Destroy the Payroll Office copy.
Make a contribution via payroll deduction,	<p>Make sure:</p> <ul style="list-style-type: none"> ■ The current year’s pledge form is used. ■ The Social Security Number or Employee Identification Number is legible. ■ The employee’s work phone number is indicated. ■ The deduction per pay period is indicated. ■ The finance number of the employee is indicated ■ The amount per pay period is at least \$1.00. ■ The annual amount is indicated. ■ The annual amount per year is \$26.00 when \$1.00 is deducted per pay period. ■ The amount of the contribution is to be made via payroll deduction. ■ The employee signs and dates the pledge form. ■ When the employee uses more than one pledge form for multiple charities, all forms are stapled together; the pay period deduction as well as the annual amount of the deduction are in the appropriate boxes. Mark the pledge forms 1 of 3, 2 of 3, etc. <p>On a weekly basis Mail the Payroll Office copy to the following address, making sure a full return address for the CFC coordinator is included with each batch of forms: Eagan Information Service Center USPS Combined Federal Campaign Post Office Box 21777 Eagan MN 55121-0777</p> <p>The Eagan Information Center (ISC) retains the payroll deduction portions of the pledge cards for 6 months.</p> <p>After January 1, 2010 Submit to the Human Resources Shared Services Center (HRSSC) PO Box 970400 Greensboro, NC 27497-0400 for entry.</p> <p>Note: All cards dated or sent after January 1, 2010, will be returned to the CFC coordinator for entry by the HRSSC.</p>

- Submit corrections to the HRSSC, not to the Eagan ISC.

Note: All cards that are illegible or incomplete will be returned to the local CFC coordinator for processing at the HRSSC in pay period 02/10 or later.

Final Report

At the end of each campaign, the Eagan ISC prepares a report from the Postal Payroll System of CFC contributions

through payroll deduction (as of pay period 02) as the annual report of national CFC contributions. Each performance cluster manager receives a copy.

San Mateo Data Center Planned Site Maintenance Outage Will Impact USPS and USPIS Environments

The San Mateo, California, IT/ASC Data Center and all associated applications, including all e-mail mailboxes resident in San Mateo as well as Blackberry mailboxes, will be down for infrastructure maintenance beginning Saturday October 10, 2009, at 10:00 P.M. Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed below.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First Day of Issue Digital Color or Traditional Postmarks

Customers have 60 days to obtain the first day of issue postmarks by mail. They may purchase new stamps at their local Post Office™, by telephone at 800-STAMP-24, or at The Postal Store® website at www.usps.com/shop.

Traditional Postmarks

Customers should affix the stamps to envelopes of their choice, address them to themselves or others, or provide a self-addressed return envelope with sufficient postage large enough to accommodate the canceled item. Mail the request to the corresponding city of issuance. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers should submit a check, money order, or credit card for payment. After applying the first day of issue postmark, the Postal Service™ will return the envelopes to the customer by U.S. Mail.

All postmark requests should go to the first day of issue city. The first day of issue city Post Office will then forward in bulk all postmark requests to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992 by respective Post Offices.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16" side seams with no glue on the flap. The maximum

size of all digital color postmarks is 2" high x 4" long. Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers should submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers should affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Mail the request for a first day of issue digital color postmark to the corresponding city of issuance. Post Offices will then forward all customer requests for digital color postmarks to Cancellation Services, Stamp Fulfillment Services, PO Box 449992, Kansas City, MO 64144-9992.

After applying the first day of issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail.

Outdoor Collection Box Equipment is Available for Purchase

Outdoor collection box equipment is now available through the Material Distribution Center (MDC). The revised MLB-CO-08-010 (see http://blue.usps.gov/purchase/_pdf/ops_mlb08-010.pdf) contains a complete list of the equipment available under this national contract. Many equipment improvements have been made. In addition to security upgrades, the boxes will have a new anti-graffiti additive. This will reduce maintenance costs, make cleaning of all exterior surfaces much easier, and help preserve the most visible of postal icons for many years to come.
