USPS Celebrates Earth Day 2021: Working for a Sustainable Future

On April 22, 2021, the United States Postal Service® joins the global community in celebrating Earth Day. Earth Day is a day to focus on how our actions impact our earth, as well as a day to empower everyone with the information and resources needed to protect their local environment and communities.

The Postal Service™ prioritizes environmental sustainability across our organization through the following programs:

- Environmental Compliance Reviews (blue.usps.gov/sustainability/environmental/risk_assessment.htm).
- National Recycling Operation (blue.usps.gov/sustainability/national-recycling-operation.htm).
- BlueEarth® suite of services (about.usps.com/what/corporate-social-responsibility/sustainability/greening-business).

As a sustainability leader among federal agencies and international postal organizations, the Postal Service is pleased to highlight our efforts in this edition of the *Postal Bulletin*, and show you how to become more involved in working toward a sustainable future.

The Postal Service encourages employees to consider how to integrate sustainability into their daily operations. The Office of Sustainability provides resources to help employees do just that:

- The Virtual Post Office (blue.usps.gov/sustainability/virtual-po.htm) and Virtual Vehicle Maintenance Facility (blue.usps.gov/sustainability/virtual-vmf.htm) provide a visual walk-through of these types of facilities to highlight environmental compliance requirements and sustainability opportunities.
- The Green Project List (blue.usps.gov/sustainability/greenteams/projects/welcome.htm) includes over 40 examples of no- or low-cost projects focused on energy, fuel, and water reduction, green purchasing, recycling, and minimizing waste that any employee can implement.
- The Recycling Toolkit (blue.usps.gov/sustainability/recycling-toolkit.htm) provides detailed, site-specific information on how to participate in our recycling program.

Many more resources are available to help you do your part to ensure the Postal Service is a sustainable business today and for generations to come.

Outside of the time we spend at the Postal Service, each of us can engage in meaningful activities on Earth Day — and every day — to help protect the environment, even during a global pandemic. You can participate in Earth Day

online or in-person solo, with members of your household, or socially distanced. Here are some ideas for participation:

- 1. Use Earth Day to clean up the earth.** Participating in a clean-up helps you, your community, and the Earth. There are many ways you can do a clean-up:
 - Try plogging, or picking up trash while jogging, to add a new element to your workouts and make your route more scenic as you go.
 - Trail clean-ups are a great way to help everyone enjoy a clean trail. Bring a trash bag on your next hike and collect trash as you go.
 - A clean-up scavenger hunt is a fun way to engage a small group or kids in a clean-up. Locate an area that is safe and in need of a clean-up, and create a list of different trash items that should be collected.

No matter what type of clean-up, follow proper safety precautions, including COVID safety precautions, and dispose of the waste appropriately when you are finished. The following resources are available:

- Find a clean-up near you: earthday.maps.arcgis.com/apps/opsdashboard/index.html#/8d15cc3da12d4338a109c7d64c97c02a.
- Get a safety checklist and tips for organizing a clean-up: earthday.org/your-first-cleanup-what-to-know-and-expect-15-tips-for-first-time-volunteers.

- 2. Become a citizen scientist.** Volunteer at one of the organizations listed to help make important scientific discoveries about earth:

- NASA (science.nasa.gov/citizenscience?field_division_tid=103).
- The Smithsonian Institution (si.edu/volunteer/citizenscience).
- Zooniverse (zooniverse.org/projects).
- National Geographic (inaturalist.org).

Whether you spend two minutes observing a bird and recording it in a mobile app or an hour investigating images of ancient fossils, there are countless online and onsite opportunities for everyone of all ages and interests.

- 3. Learn something new.** Visit your local science museum online or onsite to learn something new about the earth. If you are unsure of your closest science museum, NASA has a map of over 1,200 museums, science centers, planetariums, and more that you can use to find a museum near you. Find your local science museum at informal.jpl.nasa.gov/museum/Connect.

Environmental Compliance Support and Resources

Postal Service™ facilities may be subject to a variety of federal, state, and local environmental laws and regulations. Compliance requirements for each facility will be based on the operations and systems at the location, and in some instances, the state or local jurisdiction.

The Office of Sustainability (OoS) Environmental Compliance website has tools to help sites achieve compliance, including equipment-specific *Environmental Compliance Bulletins* and targeted stand-up talks. The Virtual Post Office and Virtual Vehicle Maintenance Facility compliance pages provide user-friendly visuals to direct visitors to the appropriate guidance. Also, there are dedicated Battery Recycling and Bulb Management pages that provide standard operating procedures to assist sites in proper management of these regulated wastes.

Virtual Post Office (blue.usps.gov/sustainability/virtual-po.htm)

Virtual Vehicle Maintenance Facility (blue.usps.gov/sustainability/virtual-vmf.htm)

For each site, the Installation Head is responsible for ensuring their facility's environmental compliance requirements are fulfilled, including training and records management. Activities, equipment, and systems that may be subject to environmental compliance requirements are listed in the table:

Plastic Wrap Recycling Made Easy

Available on catalog, collection of plastic shrink wrap and stretch wrap has become a little easier with the introduction of the RACK'n PAK™ system. The RACK'n PAK stand and insert collection bag ensures efficient consolidation of work area-generated, clear plastic shrink wrap and stretch wrap. Key advantages of this collection system include:

- Promotes work area orderliness and reduces clutter.
- Reduces the time spent handling loose wrap.
- Reduces trash.
- Increases recyclable value.

Simply place the RACK'n PAK at workstations where plastic wrap is being generated. Review potential recycling options with your local maintenance staff. To order supplies, use the following information:

- eBay+ Supplier Part#:11973732; \$249, Single unit and initial supply of vented collection bags.
- eBay+ Supplier Part#:11975216; \$1079, 6-unit set and initial supply of vented collection bags.
- eBay+ Supplier Part# 11705175; \$47.50; 1 case (75 bags/case). Estimate 75 bags to last 2 to 3 months, depending on volume of stretch wrap generated.

For more information about recycling plastic shrink wrap and stretch wrap, and avoiding contaminants, visit blue.usps.gov/sustainability/videos/delivery-retail-unit-clear-plastic-wrap.htm.

To find out which items are recyclable at your office, type your ZIP Code™ into the Delivery/Retail Unit Backhaul Recycling Toolkit at blue.usps.gov/sustainability/recycling-toolkit.htm.

USPS Teams Up with How2Recycle

The Postal Service™ has launched an effort to encourage more customers to recycle Priority Mail® boxes and other packaging products.

Customers are sometimes unaware that many USPS® products stamped with the words "Please Recycle" along with the universal chasing-arrows recycling symbol are made from recyclable materials and must not be discarded with other waste.

To encourage more customers to recycle, the Postal Service has joined forces with How2Recycle®, a consumer-oriented package labeling system that uses Federal Trade Commission guidance to help customers learn how to properly recycle.

How2Recycle labels give customers precise instructions, including how to prep for recycling, the type of recyclable material (such as plastic or paper), and the

packaging format (i.e., bottles and boxes) to make recycling easier. Cereal boxes, soup cans, and other pantry items often carry How2Recycle guidance.

The How2Recycle labels will be added to Priority Mail, Priority Mail Express®, and ReadyPost® packaging, as well as other Postal Service products this year.

Postal Service Flex-Fuel Vehicle Usage

Section 701 of the Energy Policy Act of 2005 requires all Postal Service™ dual-fuel vehicles to operate on alternative fuel rather than conventional petroleum, unless granted a waiver by the Department of Energy (DOE).

This mandate applies to anyone with access to a Postal Service vehicle, including drivers, fleet managers, and facility managers. This also includes Postal Service employees and contractors who may not have an assigned vehicle, but who may operate a vehicle as a minor portion of their responsibilities.

Dual-fuel vehicles are vehicles that can operate on two different types of fuel — an alternative fuel and petroleum fuel. They are also referred to as flex-fuel vehicles (FFVs).

Almost all dual-fuel vehicles in the postal fleet are E85 FFVs, which operate on either gasoline or E85. Take the following steps to determine if you are driving an E85 FFV:

- Check your gas cap. Most manufacturers began placing yellow gas caps on FFVs as of model year 2008.
- Check the fuel door. Some FFVs have labels on the fuel door indicating the fuel type.
- Look for badges or labels on your vehicle's body. Most FFVs have the terms "FFV," "E85 FFV," or "Flex Fuel" on badges attached to the rear or side of the vehicles.
- Check with your local fleet manager to determine if the vehicle is an E85 FFV.

Each time you drive a different Postal Service vehicle, first determine if it is an E85 FFV to ensure that you are refueling the vehicle with the correct fuel.

Conditions for the DOE waiver mentioned above are outlined in section 701 of the law. Vehicles may qualify for a DOE waiver if:

- Alternative fuel is not reasonably available, which means that alternative fuel cannot be obtained within 3 miles (one way) from the vehicle's:
 - Refueling location, if using the Voyager credit card; or
 - Vehicle domiciled location, if the refueling location is not displayed using the Voyager credit card.

"The Postal Service's vision is to be a sustainability leader by encouraging a culture of conservation — and recycling is an integral part of those efforts. We're proud to work with How2Recycle to make it easier for our customers to recycle Priority Mail and other packaging materials," said USPS Chief Sustainability Officer Jennifer Beiro-Réveillé.

For more information about Postal Service Sustainability efforts, visit blue.usps.gov/sustainability/welcome.htm.

- Alternative fuel is unreasonably expensive, which means that the standard marketed price for alternative fuel is more than gasoline at the same station. For the liquid fuels E85, liquid petroleum gas, and liquid natural gas, the marketed price is expressed in gallons. For compressed natural gas, the marketed price is gasoline gallon equivalent.

For more information on the waiver request process, visit energy.gov/eere/femp/downloads/guidance-documentation-requirements-waiver-requests-under-epact-2005-section-701. To find the nearest alternative fuel stations, use the DOE's Alternative Fueling Station Locator at afdc.energy.gov/locator/stations.

To find an alternative fuel station along your driving route or outside of your normal operating area, use the Plan a Route tool on the Alternative Fueling Station Locator at afdc.energy.gov/locator/stations.

There is also a mobile version of the Alternative Fueling Station Locator that can help identify the nearest alternative fuel stations. Simply search for and visit the Alternative Fueling Station Locator from your smartphone or other mobile device at afdc.energy.gov/stations/#/find/nearest. Drivers must be stopped, with the vehicle in park, before using any mobile tool while operating a federal vehicle.

E85 or ethanol fuel pumps may look different from conventional fuel pumps at fueling stations. In most cases, the E85 fuel pump will have a separate, yellow-colored nozzle handle or hose to distinguish it from conventional fuel pumps. The pump will also have a label stating that the fuel is E85 and for flex-fuel vehicles only.

The E85 pump itself may be located at a stand-alone site or under a separate canopy from the conventional fuels at the fueling station. Regardless of the pump's location at the station, please note that the fueling process for E85 is the same as for a standard gas or diesel fuel pump.

Since 2009, federal agencies have been required to inventory and reduce their greenhouse gas emissions. Increasing the use of alternative fuel as a substitute for petroleum is the most effective way that fleets can meet these greenhouse gas and petroleum reduction requirements.

USPS Energy and Water Use: Trending in the Right Direction

Our Scope

At the United States Postal Service®, we operate more than 31,000 Post Offices, branches, carrier annexes, and processing and distribution centers across all 50 states and U.S. territories. Our facilities consume energy from all utility sources, including electricity, natural gas, heating oil, propane, and steam. Expenditures on utilities – energy and water consumption – account for more than half of our facility operating costs. That’s why it is important for us to track and proactively manage our energy and water consumption, not only to minimize costs, but to reduce greenhouse gas emissions and conserve natural resources.

How Our Portfolio-wide Performance is Measured

For a portfolio of our size, we use intensity metrics to track our portfolio level trends and performance. Intensity is a normalized metric that reflects consumption as a function of building size. Our energy performance is tracked by energy use intensity (EUI), which is measured using British Thermal Units (BTUs) per gross square foot (GSF). Likewise, water performance is tracked by water use intensity (WUI), which is measured using gallons per GSF.

Intensity metrics allow us to track our performance year over year; and our performance has been trending in the right direction for both energy and water consumption. Since we use intensity metrics, we know that our performance reflects that our buildings are operating more efficiently, as opposed to consumption decreasing due to changes in the size of our building portfolio.

Since 2003, we have reduced the EUI at our facilities by 35.6 percent, and the WUI by 50.8 percent, since 2007 (see graphs).

These trends show our building energy and water performance on an annual basis, but we are also actively monitoring our utility consumption at the facility level on an ongoing basis to quickly identify consumption issues or efficiency opportunities.

How We Monitor Energy and Water Consumption at Facilities

Regularly monitoring energy and water utility bill data at the facility level allows us to quickly identify issues at the facility, such as equipment in need of repair, leaking pipes, or billing errors.

While we operate over 31,000 facilities, many of our buildings are small and only approximately 5,000 facilities consume over 75 percent of our total annual energy consumption. The water and energy consumption for these larger facilities is tracked in our Utility Management System (UMS). The UMS system was set up to analyze and flag invoices that reflect excessive utility usage or utility cost by comparing against data from prior billing cycles and same period last year data, which creates an exception report for review and response. These exceptions are available in the system for UMS Area and District Coordinators to review and take necessary action. There have been numerous instances where exception reviewers were able to identify billing errors, contractual rate infractions, or even a simple high usage due to equipment in need of repair at the facility.

The USPS Enterprise Energy Management System (EEMS) integrates energy data from UMS and our internal purchasing systems, which is used for smaller facilities that are not in UMS. EEMS is used to compare facility energy performance across the portfolio, normalizing usage based on weather conditions to allow us to compare our non-weather impacted energy usage from year to year at the facility level so that we can accurately determine the success of our energy-saving efforts.

Our Current Projects and Initiatives

Energy efficiency investments have improved Postal Service™ operations in several ways. Improved lighting quality allows for faster reading of small print on labels and reduces the associated eye strain. New LED lighting systems reduce the maintenance required for lamp and ballast replacements. Building Automation Systems improve maintenance efficiency by allowing online troubleshooting of problems and reducing inspection routes.

We conduct energy audits at our facilities to identify energy savings opportunities, primarily focusing on LED lighting replacements. One example of a facility energy efficiency project was completed at the Houston North DDC. This project consisted of replacing interior fluorescent lamps and ballasts with LED lamps and new LED drivers, as well as replacing high bay metal halide fixtures with new high bay LED fixtures. As part of this project, 219 fixtures were either retrofit or replaced. This project represents a 793,000 kWh annual reduction in energy consumption and a \$56,000 annual reduction in energy costs.

Water usage is also evaluated along with energy in performance audits. Where financially feasible, water fixtures have been replaced with low-flow options at facilities as part of this program. Low-flow fixtures generally include 1.6 gallons per flush or less toilets and 0.5 gallon per minute faucet aerators. Water consumption is reduced, as well as hot water heater energy consumption in fixtures that use hot water. Our operations are not water intensive, and the major source of water use is through these fixtures.

In addition to our conservation efforts, we are also pursuing new on-site renewable energy projects at our South Jersey Mail Processing center to add additional clean energy to our portfolio. This large solar project includes installation of over 13,000 solar panels, having a capacity of 4260 KW, and is anticipated to generate 7,150,000 kWh annually. This is enough electricity to power over 850 homes each year.

We all make a difference when we are mindful of our energy and water usage. Remember to do your part, and we'll be energy smart together. For more information about delivering a positive impact and leading by example, visit blue.usps.gov/sustainability/welcome.htm.

To Buy Green is to Know Green

You have probably heard the terms “buy green” or “green purchasing,” but what do they really mean? The Environmental Protection Agency (EPA) defines green purchasing as the purchase of products or services that have a reduced effect on the environment and human health when compared with competing products or services.

Green purchasing, more properly referred to as environmentally preferable purchasing (EPP), isn't always easy. That's why the Postal Service™ has developed specific guidance on what products are considered environmentally preferable:

- Products made of recycled materials from post-consumer sources;
- Products made of renewable bio-based materials (i.e., USDA BioBased or BioPreferred products);
- Products that are energy efficient (i.e., Energy Star, UL Energy Efficient, NEMA Premium Efficient qualified products);
- Products that are water efficient (i.e., EPA WaterSense certified); or
- Products that are ecolabel certified by a reputable third-party organization (i.e., GreenSeal or EcoLogo).

Examples include retread tires, recycled antifreeze, re-refined oil, recycled content paper, non-hazardous aqueous parts cleaning solutions, and bio-based adhesives. USPS® has had a long-term policy in place (since 1995) to avoid purchasing products that contain the USPS 13 tar-

geted chemicals, EPA priority chemicals, and ozone depleting substances (Class I and II).

Details for this can be found in the following publications:

- MMO-013-19, Pollution Prevention and Waste Minimization at mtsc.usps.gov/pdf/mmo/2019/mmo01319.pdf.
- MMO-112-18, USPS Targeted Chemicals List at mtsc.usps.gov/pdf/mmo/2018/mmo11218.pdf.

To learn more about what certifications, ecolabels, and EPP criteria apply to green products, refer to the USPS Green Purchasing Guide at blue.usps.gov/sustainability/green_purchasing.htm.

To “buy green,” consider these six factors:

- **Recycled content.** Products that contain high levels of post-consumer recycled materials have less of an impact on the environment. Post-consumer recycled materials are obtained from discarded consumer products. For example, if you buy copy paper, choose a minimum of 30 percent post-consumer recycled content paper.
- **Bio-based materials.** Natural bio-based materials, such as vegetable-based hydraulic oils or soy-based adhesives are known as “USDA BioPreferred.” These products use renewable resources and contribute to the reduction of adverse effects on the environment and human health.

- **Energy efficiency.** Purchase energy-efficient equipment and appliances whenever possible. Look for the ENERGY STAR logo when buying appliances, lighting, and new equipment.
- **Water efficiency.** When replacing old faucets and toilets, look for products bearing the EPA Water-Sense label. These products are certified to perform as well or better than their less efficient counterparts, and are 20 percent more water efficient than average products in that category. This means measurable water savings!
- **Ecolabel certified.** Consider choosing products that have been independently certified by a reputable third-party organization. As part of the USPS Green Purchasing Program, there are over 28 reputable Ecolabels in this category that apply to the products commonly purchased by the Postal Service.
- **Non-toxic materials.** Avoid buying products containing toxic or hazardous materials. If the product

you're considering contains one or more of the Postal Service's 13 chemicals targeted for elimination or EPA's 31 priority chemicals, don't buy it. Increase your knowledge of the chemicals in the products you buy by reviewing Safety Data Sheets (SDSs). If the product you want contains a targeted chemical, look for an alternative product.

If you are using eBuy+ to buy products, the first five EPP categories listed here are included as part of the product profile — suppliers have checked off each category that applies. This can help you make informed choices. Visit the supplier's website to review the SDSs to determine how well the product meets EPP criteria before you submit your order.

Also, look for items that are reusable or refillable, and do not use an excessive amount of packaging. Whenever you buy a product or service, remember that less is more. Less product, less waste, less toxicity, fewer raw materials, less energy use, and less water use is always preferred.

DMM Revision: Priority Mail Express Delivery Times

Effective June 20, 2021, the Postal Service™ will revise *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*, in various sections, to reflect changes in the Priority Mail Express® delivery times, including eliminating the optional 10:30 A.M. delivery time.

Currently, the Priority Mail Express service guarantee delivery times for most domestic mail, including Priority Mail Express Military Service® and Hold For Pickup service, are 12 P.M. or 3 P.M. as designated by the 3-digit or 5-digit destination ZIP Code™ delivery areas and defined in the Priority Mail Express Delivery directory. The Postal Service has changed the Priority Mail Express service guarantee delivery time to 6 P.M. The Postal Service is also eliminating the optional 10:30 A.M. delivery time that was available for a fee.

The revisions to the Priority Mail Express service guarantee delivery times and elimination of the optional 10:30 A.M. delivery time will enable the Postal Service to improve the quality of service and provide a more efficient customer experience.

Although the Postal Service will not publish these revisions in the DMM until June 20, 2021, the standards are effective May 23, 2021.

DMM Revision: Return Addresses

Effective June 20, 2021, the Postal Service™ will revise *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*, section 602.1.5.3, to clarify the standards regarding the required use of return addresses. Section 602.1.5.3 identifies specific circumstances when the sender's domestic return address is required.

Currently, section 602.1.5.3 does not include standards for USPS Returns® service, Parcel Return Service, and specific circumstances when the sender's domestic return address is required for hazardous, restricted, or perishable matter (as provided in section 221.11 of Publication 52, *Hazardous, Restricted, and Perishable Mail*). This revision will add standards to the DMM for USPS Returns service, Parcel Return Service, and hazardous, restricted, and perishable mail in accordance with the standards in Publication 52.

Although the Postal Service will not publish this revision in the DMM until June 20, 2021, the standards are effective immediately.

Forms

Revised PS Form 3650 is Now Available

Effective March 2021, the Postal Service™ revised PS Form 3650, *Request for Expedited Packaging for Business Reply Mail Use*, to summarize the requirements for customers who request specialized packaging supplies for use as Business Reply Mail® (BRM) inserts.

Customers (mail service providers or end clients) are not authorized to use free USPS® Expedited Packaging supplies as BRM inserts for solicitation purposes unless they are willing to cover the cost of the Expedited Packaging supplies. The following Priority Mail® BRM envelopes are available for purchase:

- Priority Mail Flat Rate Envelope EP14B (10" L x 6" W).
- Priority Mail Flat Rate Envelope EP14F (12.5" L x 9.5" W).

USPS-supplied Expedited Packaging is intended for full postage use, and not as reply envelopes where a high percentage are never mailed or returned. If a customer would like to use the envelopes in this manner, the Postal Service now offers customers the option to purchase Expedited Packaging supplies.

The company's representative must review PS Form 3650 for accuracy, print their name and title, then date and sign the form. The USPS sales representative must email a copy of completed and signed PS Form 3650 to *expedited-packaging@usps.gov* for review and approval. Once approved, the customer will be contacted for payment information before the envelopes are shipped to them.

Revised PS Form 3650 is now available on the PolicyNet website:

- Go to blue.usps.gov.
- In the left-hand column under "Essential Links," click *PolicyNet*.
- Go to the right-hand side under "Published Forms and Directives," click *Forms*, and then click on the range 3000–3999.
- Scroll down to the form entry and click the PDF icon.

Invalid USPS Corporate Account Numbers

Provide this listing to Contract Postal Units and acceptance clerks in non-POS locations without intranet access to validate a USPS Corporate Account (USPSCA) number online. For all other locations, online USPSCA validation is preferred. This list supersedes all previous notices, which you must recycle.

Acceptance clerks must not accept Priority Mail Express® shipments bearing an invalid USPSCA number in the “Payment by Account” or “Agreement Number” section of the label or form.

Note: The first 6 digits of a 9-digit Custom Designed Service and Next Day Pickup Agreement make up the Corporate Account Number.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international Postal Service money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word "USPS" repeated.
 - When there is discoloration around the dollar amounts, this might indicate the amounts were changed.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at usps.com/shop/money-orders.htm.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mail-

ing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks must use the table with the Retail System Software terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing

We have eliminated “Not Active” entries from the table below to save space and paper.

Bottom Line: Tips to Improve Your Financial Well-being

April is Financial Literacy Month, a time to learn how to improve your financial well-being. Sound financial principles can help you prepare for future savings goals and unexpected emergencies while providing you with the flexibility to enjoy life (see flyer on page [42](#)).

According to the Federal Financial Literacy and Education Commission (home.treasury.gov/policy-issues/consumer-policy/financial-literacy-and-education-commission), the five financial principles to help manage and grow money are:

- **Earn.** Understand your benefits. Learn how to read your paycheck, including deductions, taxes, and withholdings.
- **Save and invest.** Save each month and invest for retirement, your children's education, and other major items.
- **Protect.** Monitor your credit scores. Watch out for identity theft, fraud, and scams. Build an emergency fund for unexpected events. Purchase life, health, and home insurance.
- **Spend.** Live within your means by setting short- and long-term financial goals, and compare prices, quality, and necessity of purchases when shopping.
- **Borrow.** Your credit history affects the annual percentage rate for car and home loans, so always pay your bills on time.

The Consumer Financial Protection Bureau — a U.S. government agency that ensures banks, lenders, and other financial companies treat you fairly — offers an online tool (consumerfinance.gov/consumer-tools/financial-well-being) to help you evaluate your financial well-being.

- Watch out for frauds and scams.

- Establish a budget and live within your means.
- Set short and long-term financial goals and manage your money to meet them.

- Keep your credit history strong and pay bills on time.

Protect Your Information

Have you ever had that eerie feeling when an ad pops up on your social media feed for a product you were just talking about? It may not be a coincidence at all. In fact, it is likely that when you accepted the user agreement for the application, you granted the app access to your browsing history, microphone, and contacts.

The terms and conditions (or user agreement) that you must accept before downloading an app or creating an account is a legally binding document. Deep in the fine print are often clauses claiming certain privileges to access your data. This data can be sold to other companies for advertising purposes and other consumer data needs.

Here are some privacy tips to help keep your data and information secure:

- **Update permissions.** When downloading an application, you likely granted all permissions it initially requested. Android users can limit access in the

“Application Manager” and Apple users can go into the device's settings under “Privacy” and make changes to any previously granted permissions.

- **Limit access.** Apps often request access to permissions that are irrelevant to their main functions. If a flashlight app requests access to your microphone, location, or contacts — and you granted the app permission — it's likely that information will be stored and sold.

For more information or to view the approved app list, visit the CyberSafe page at blue.usps.gov/cyber/internet-access-and-mobile-protection-initiatives/mobile-protection-initiative.htm.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears on the following pages. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed next to the postmark.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 120 days to obtain the first-day-of-issue postmarks by mail. Each cover must have sufficient postage to meet First-Class Mail® requirements. Customers may purchase new stamps at their local Post Office™, by phone at 800-782-6724, or on The Postal Store® website at usps.com/shop.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service™ recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16-inch side seams with no glue on the flap. The maximum size of all digital color postmarks is 2 inches (vertically) by 4 inches (horizontally). Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of

their postmarked items. Address customer requests for digital color postmarks to:
