Cover Story

Energy Action Month: USPS Drives Operational Efficiency

The Washington, DC Network Distribution Center and Surface Transfer Center (NDC/STC) in Capitol Heights, MD, experienced significant lost productivity in its Powered Industrial Vehicle (PIV) operations due to charging and changing the lead acid batteries that powered their fleet of 92 vehicles. PIVs, such as forklifts, tow motors, and pallet jacks, are used to move mail within Postal Service™ plants.

On average, operators spent 20 minutes — and sometimes up to 35 minutes — to charge and change the lead acid batteries. Operators had to go to the battery room, wait in line, charge or change a battery, and return to their assignments.

On top of the long wait times, lead acid batteries had several other drawbacks. The recharging cycles were long and required each PIV to have three batteries — one for use while a second one charged and a third one cooled post-charge. The batteries posed environmental, health, and safety risks due to the sulfuric acid content. They also consumed large amounts of electricity, had a limited run-time, and ran a short lifespan of three years. Over time, the deteriorating charge further slowed the PIV. All these factors contributed to the high operation, maintenance, and compliance costs for using lead acid batteries.

To counter these drawbacks, the Washington, DC NDC/STC management team began a Lean Six Sigma project to research advanced battery technology options for this facility. They consulted with USPS® Headquarters Engineering and the U.S. Department of Energy (DOE) to identify alternatives. Hydrogen fuel cell (HFC) technology emerged as a potential solution.

On February 16, 2017, USPS commissioned the installation of an HFC generation system to replace the lead acid battery system at the Capitol Heights facility.

HFC technology has increased PIV operator productivity.

HFCs are considered by the industry as a best-in-class alternative to lead acid batteries as a power source for material handling equipment, particularly in high-throughput distribution centers. These electromechanical devices extract energy from a hydrogen-rich fuel, convert it into electrical energy, and release only two byproducts: heat and water.

Implementing the HFC system at the Capitol Heights facility shortened refueling times, increased maintenance intervals, and provided reliable voltages, which increased PIV operator productivity. HFC system operations are clean, consume significantly less electricity, and require less time and money to ensure compliance. HFCs are safer, more environmentally sound, and more efficient batteries than traditional lead acid batteries.

The first year of the Washington, DC NDC/STC pilot, led by Plant Manager Robert Borris, and In-Plant Support Manager Rusty Williamson, realized many successes:

- Equipment was made more readily available.
- The rate of containers moved per hour by PIV operators increased.
- In 2019, USPS continued to see a trend of decreasing labor hours despite an increasing workload.
- Electricity consumption decreased by 2.1 million kWh in the first year, which resulted in a \$188,000 lower annual utility bill.
- USPS reached its Facility Energy Efficiency goal to reduce energy intensity (measured through data retrieved from utility bills, submetering systems, and other information systems).

In light of the successful pilot program, USPS has begun evaluating the scalability of HFC technology to other processing and distribution centers. Our goal is to drive

operational efficiencies by replacing the lead-acid battery systems currently powering the PIVs with HFC systems at a minimum of two processing centers per year.

This strategy involves a review of our facilities' existing PIV fleet, battery room, electrical capacity, and required space. When a good location for this change is identified, USPS will perform a pre-design hydrogen infrastructure assessment and battery room electricity consumption baseline to develop a site-specific business case. Last year, four facilities were reviewed for HFC technology expansion. Current target facilities are the New Jersey Network Distribution Center and the Brooklyn Processing and Distribution Center.

The DOE Hydrogen and Fuel Cell Technologies Office recognized our HFC project with its 2018 Power Award for setting the standard for other federal agencies and businesses to follow. Also, the project received the 2018 Federal Energy and Water Management Award for exceptional accomplishments in energy, water, and fleet management in the federal sector.

USPS plans to be a leader in environmental sustainability and continues to evolve with our changing future. For more information about current sustainability goals, visit usps.com/green.

Correction: Publication 52 Revision: Hemp-based Products Update

The article entitled “Publication 52 Revision: Hemp-based Products Update,” published in *Postal Bulletin* 22579 (8-26-21, page 5), listed the maximum mailable limit for tetrahydrocannabinol (THC) concentration at .03 percent for hemp-based products, which was incorrect.

The correct concentration limit for THC regarding mailable hemp-based products is 0.3 percent. The text change for 453.37 will read as follows:

“Hemp and hemp-based products, including cannabidiol (CBD) with the tetrahydrocannabinol (THC) concentration of such hemp (or its derivatives) not exceeding a 0.3

percent limit are permitted to be mailed in domestic mail only when:”

As stated in the previous article, the Postal Service™ will incorporate the corrected revision into a later edition of online Publication 52, *Hazardous, Restricted, and Perishable Mail*, which is available via Postal Explorer® at pe.usps.com.

Notice to All Post Offices with Rural Delivery Service: Rural Carrier Guarantee Period

Postal Service™ managers must effectively manage rural carriers who work under the provisions of the Fair Labor Standards Act (FLSA), section 7(b)(2). Those carriers are paid overtime for all hours actually worked in excess of 2,080, up to 2,240, within the 52-consecutive-week guarantee period.

If a carrier works more than 2,240 hours within the guarantee period, the agreement under FLSA section 7(b)(2) is considered void, and the carrier must be compensated for all hours worked during the guarantee period in accordance with FLSA, section 7(a).

Postal Service managers must make a concerted effort to minimize the number of hours carriers work over 2,080, and strictly monitor these carriers to ensure that no carrier works in excess of 2,240 actual work hours.

The 2021–2022 guarantee period will begin on Saturday, October 9, 2021, and continue through Friday, October 7, 2022.

Dimension Changes for 14 Expedited Packaging Supplies

The United States Postal Service® (USPS®) produces and fulfills over 181 million Standard and Specialized Expedited Packaging Supplies orders annually (i.e., Priority Mail Express®, Priority Mail®, and Global Express Guaranteed®):

- Standard Packaging is available to customers at store.usps.com/store/home (with some items also available in retail offices).
- Specialized Packaging is available to larger customers who provide USPS with a minimum of \$75,000 in annual revenue.

Currently, USPS is working on an effort to increase mail-piece visibility throughout the processing network. After reviewing the Standard and Specialized Packaging, USPS is changing the dimensions of 11 Standard items and three

Specialized items. Changing the dimensions will allow the boxes and envelopes to be processed on mail processing equipment more efficiently, increase visibility, and reduce the need for manual package sortation.

The Expedited Packaging Supplies with new dimensions will go into effect in late September 2021. USPS will continue to fulfill orders for the Expedited Packaging Supplies with the current dimensions while supplies last. Once supplies with the current dimensions have been depleted, orders for these items will be fulfilled with supplies that have the new dimensions.

The boxes and envelopes listed in the two tables show both current and new dimensions.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: \$1,000 for domestic, and \$700 for international Postal Service money orders.
2. Check that the proper security features are present:
 - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.
 - When held to the light, a dark line (security thread) runs from top to bottom with the word “USPS” repeated.
 - When there is discoloration around the dollar amounts, this might indicate the amounts were changed.

These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card*, or online at usps.com/shop/money-orders.htm.

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Other Information

Overseas Military/Diplomatic Mail

Mail addressed to military and diplomatic post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO/DPO table outlines these conditions by APO/FPO/DPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) page following the table).

Acceptance clerks must use the table with the Retail System Software terminal to determine which APO/FPO/DPO ZIP Codes are active and which conditions of mailing apply.

We have eliminated “Not Active” entries from the table below to save space and paper.

The G Fund is managed internally by the Federal Retirement Thrift Investment Board. Assets of the F, C, S, and I Funds are managed externally. The Board currently has contracts with BlackRock Institutional Trust Company, N.A., to manage the F, C, S, and I Fund assets. The F, C, S, and I Funds invest in commingled trust funds, in which the assets of tax-deferred employee benefit plans are combined and invested together. The F, C, S, and I Funds and the BlackRock funds are passively managed index funds.

Future performance of the funds will vary and may be significantly different from the returns shown above. See the *Summary of the*

Thrift Savings Plan for detailed information about the funds and their investment risks. The monthly returns of the TSP Funds represent net earnings for the month after deduction of accrued administrative expenses and, except for the G Fund, after deduction of trading costs and accrued investment management fees as well. The returns for the four indexes shown do not include any of these deductions.

* Implemented May 2001.

Freely Associated States Restrictions

We list the mailing restrictions for Freely Associated States (FAS) in the Pull-Out section of the *Postal Bulletin*. All FAS Restrictions will be updated periodically.

Freely Associated States

Mail addressed to freely associated states is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The following FAS Restrictions table outlines these conditions as listed by each affected FAS ZIP Code™ through the use of footnoted mailing restrictions codes (see the [Restrictions](#) following the table). For more information on available extra services for FAS destinations, see *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)*, part 503.

Acceptance clerks must use the table with the Retail System Software terminal to determine which FAS ZIP Codes are active and which conditions of mailing apply.

Safety and Health

Fire Prevention Week is October 3–9, 2021

Fire can spread quickly through your home or facility, leaving you little time to safely escape. The National Fire Protection Association (NFPA) estimates that in the United States:

- A fire department responds to a fire every 24 seconds.
- One civilian fire-related injury occurs every 32 minutes.
- One civilian fire-related death occurs every 142 minutes.

Fire evacuation plans, smoke detectors, sprinklers, and properly maintained fire extinguishers can help save lives.

Evacuation Plans

Evacuation plans must include a map of your facility or home showing two exits (windows or doors) and a path to the outside from each exit. Practice fire drills twice a year, at different times and using different exits. At home, teach children how to escape on their own in the event an adult is unable to help them. When evacuating a burning building, close doors behind you when you leave as this may slow the spread of smoke, heat, and fire. Once you get outside, stay outside. Never go back inside a burning building.

Smoke Detectors

Nearly 2,500 people die in home fires every year in the United States. Most of these people live in homes that do not have working smoke detectors. Approximately 60 percent of home fire deaths result from fires in which smoke detectors were not present or didn't work. To find out how old your smoke detector is, remove it from the wall or ceiling and look at the manufacture date on the back of the alarm. Smoke detectors must be replaced every 10 years.

Place smoke detectors on every level of your home, outside each sleeping area, and inside every bedroom. There are many brands of smoke detectors on the market, including alarms for people who are deaf or blind. These alarms may have strobe lights that flash or vibrate to alert those who are unable to hear standard smoke detectors when they sound. For the best protection, make sure all smoke detectors are interconnected. When one sounds, they all sound.

Have you checked your smoke detector to make sure it's still working? A smoke detector with a dead or missing battery is the same as having no smoke detector at all. Test the alarm monthly and replace the batteries at least once a year. A smoke detector only works when you properly install and regularly test it. Some fire departments will install battery-operated smoke detectors in your home for free. Contact your local fire department's non-emergency number for more information.

Sprinkler Requirements

Don't forget to check sprinkler systems to ensure compliance. The Occupational Safety and Health Administration (OSHA) and the NFPA require a minimum distance of 18 inches between shelves, furniture, and stacked materials located directly under a sprinkler head.

Fire Extinguishers

Fire extinguishers must be easy to identify and mounted so that they are readily accessible. There are four types of fire extinguishers — select the proper one for the type of fire you may have to put out. Portable fire extinguishers must always be fully charged and kept in designated locations. OSHA requires employers to inspect, maintain, and test all portable extinguishers in the workplace. Every fire extinguisher must receive:

- A monthly visual inspection,
- An annual inspection, and
- Maintenance conducted by trained professionals.

Record monthly fire extinguisher inspections by dating and initialing PS Form 4705, *Fire Inspection Tag*. You must record annual maintenance on a separate tag provided by service professionals. At home, remind yourself to check your fire extinguishers each month by marking dates on your calendar or by setting up notifications on your phone or other electronic device.

Use a portable fire extinguisher when the fire is confined to an area no bigger than a trash can, everyone has exited the building, the fire department has been called, and the room is not filled with smoke.

To operate a fire extinguisher, remember the word "PASS":

- **Pull the pin.** Hold the extinguisher with the nozzle pointing away from you and release the locking mechanism.
- **Aim low.** Point the extinguisher at the base of the fire.
- **Squeeze the lever.** Slowly and evenly put pressure on the lever.
- **Sweep the nozzle.** Use a side-to-side motion to put out the fire.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears on the following pages. The sponsor of the pictorial postmark appears in italics under the date. Also provided are illustrations of these postmarks.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event but who wish to obtain the postmark may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date.*

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserved.

Customers wishing to obtain a postmark must affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: Pictorial Postmarks, followed by the Name of the Station, Address, City, State, ZIP+4® Code, as listed next to the postmark.

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following pictorial postmarks have been extended for 30 days:

How to Order the First-Day-of-Issue Digital Color or Traditional Postmarks

Customers have 120 days to obtain the first-day-of-issue postmarks by mail. Each cover must have sufficient postage to meet First-Class Mail® requirements. Customers may purchase new stamps at their local Post Office™, by phone at 800-782-6724, or on The Postal Store® website at usps.com/shop.

Digital Color Postmarks

Only select stamp issues offer a digital color postmark. Customers may submit #6 or #10 envelopes constructed of paper rated as "laser safe." The Postal Service™ recommends envelopes of 80-pound Accent Opaque, acid-free, 9/16-inch side seams with no glue on the flap. The maximum size of all digital color postmarks is 2 inches (vertically) by 4 inches (horizontally). Allow sufficient space on the envelope to accommodate the postmark. Do not use self-adhesive labels for addresses on the envelope. Two test envelopes must be included. There is a minimum of 10 envelopes at 50 cents per postmark required at the time of servicing. Customers must submit a check, money order, or credit card for payment.

The Postal Service reserves the right to not accept hand-painted and other cachet envelopes that are not compatible with our digital color postmark equipment. The Postal Service also reserves the right to substitute traditional black rubber postmarks if use of nonspecified envelopes results in poor image quality or damage to equipment.

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of

their postmarked items. Address customer requests for digital color postmarks to:

FDOI – (Name of Stamp Issue)
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail®.

Traditional Postmarks

Customers must affix the stamps to the envelopes and address them to themselves or others for return through the mail. Or, they may include an additional self-addressed return envelope, large enough to accommodate their canceled items, with sufficient postage affixed for return of their postmarked items. Address customer requests for traditional postmarks to:

FDOI – (Name of Stamp Issue)
USPS Stamp Fulfillment Services
8300 NE Underground Drive, Suite 300
Kansas City, MO 64144-9900

After applying the first-day-of-issue postmark, the Postal Service will return the envelopes to the customer by U.S. Mail™. There is no charge for the first 50 postmarks. There is a 5-cent charge for each additional postmark over 50. Customers must submit a check, money order, or credit card for payment.

Locally produced items are not authorized. Only merchandise that has been approved and assigned an item number by Headquarters Retail Marketing may be produced and sold.
